Section 1. Contact Information

Regulatory Citation

Title 14. Division 7. Chapter 11. Article 2. Architectural Paint Recovery Program.

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(1) Contact information. Identify the manufacturer or stewardship organization responsible for the annual report submittal. Stewardship organizations shall include an updated list of participating manufacturers and any updates to their respective contact information per §18952(a)(2).

Stewardship Organization

PaintCare Inc., a non-profit 501(c)(3) organization, was formed to serve as the representative stewardship organization of architectural paint manufacturers to fulfill their obligations under the California Paint Stewardship Law. PaintCare was created by the American Coatings Association, the primary trade association of the paint and coatings industry. PaintCare's Board of Directors consists of eleven non-paid representatives of architectural paint manufacturers.

PaintCare representation is open to all architectural paint manufacturers.

A current list of participating manufacturers and their mailing addresses is included in the appendix.

Section 2. Executive Summary

Regulatory Citation

Title 14, Chapter 11. Article 2. Architectural Paint Recovery Program

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(2) Executive Summary. The purpose of the Executive Summary is to provide a broad understanding of the manufacturer or stewardship organization's program as a whole and to put into context the data and information that will follow. Provide a brief description of the manufacturer or stewardship organization's architectural paint recovery efforts during the reporting period pursuant to PRC §48705(a). This may include anticipated steps, if needed, to improve performance and a description of challenges encountered during the reporting period and how they will be addressed. This may also include a description of paint container management and market development activities if the manufacturer or stewardship organization has chosen to engage in those activities.

A. CALIFORNIA PAINT STEWARDSHIP LAW AND ANNUAL REPORT

In September 2010, Governor Schwarzenegger signed Assembly Bill 1343 (Huffman), the California Paint Stewardship Law. This law requires manufacturers of architectural paint to develop and implement a program to reduce the generation of postconsumer architectural paint, promote the reuse of postconsumer architectural paint, and to provide a system for the management of postconsumer architectural paint in an environmentally sound manner that includes collection, transportation, processing, recycling, and proper disposal.

The California program began October 19, 2012. PaintCare, on behalf of participating paint manufacturers, submits an annual report to the California Department of Resources Recycling and Recovery (CalRecycle). Annual reports cover the period July 1 – June 30. As prescribed in Section 48700 of the California Public Resources Code and further detailed in Title 14, Section 18954 of the California Code of Regulations, the information submitted in an annual report shall be organized according to this standard outline:

- (A) Contact Information
- (B) Executive Summary
- (C) Program Outline
- (D) Description of Goals and Activities Based on the Stewardship Plan
- (E) Financing Mechanism
- (F) Education and Outreach
- (G) Audits

B. YEAR FIVE PROGRAM HIGHLIGHTS

B1. Sites, Events, and Services

- ◆ Provided 803 year-round paint drop-off sites consisting of paint retailers, municipal household hazardous waste (HHW) facilities, solid waste transfer stations, and other voluntary locations to create a network of convenient paint drop-off points in California. Through year-round sites, provided access to a year-round site within 15 miles for 98.5% of the state's population, exceeding the target of 90%.
- ◆ Managed paint from 313 HHW drop-off events at 199 sites. PaintCare also planned, promoted, and held 10 paint-only drop-off events, an increase of five over the previous year. Paint-only event locations were chosen to provide recycling opportunities in previously underserved areas with either high local demand or limited access based on existing locations. To ensure success of paint-only events, PaintCare coordinated site selection and event promotion with local agencies, HHW programs, and Native American tribes.
- ◆ Provided 313 large volume pick-ups (LVP) from businesses, institutions, and others that had accumulated more than 200 gallons of paint at their sites. PaintCare lowered the threshold to qualify for an LVP to 200 gallons in early 2017. Following this change, 20% of new LVPs were between 200-300 gallons. In addition, provided recurring large volume pick-up (RLVP) services to 52 sites.
- ◆ Partnered with 16 door-to-door-only HHW programs to manage paint collected through their services.

B2. Collection Volume

- ◆ Collected and processed 3,464,149 gallons of postconsumer paint, of which 94% was reused, recycled back into paint or another product, or used for a purpose other than landfill disposal; 46% of the paint came through retail and other non-municipal sites and services; 54% came from municipal sites and services.
- ◆ Reuse volume increased by 20%. PaintCare continued to recruit new reuse sites, as well as support the HHW facilities, reuse stores, and other partners, that made paint available to the public for reuse. As of June 30, 2017, PaintCare had 27 program partners reporting reuse.
- ◆ Recycled approximately 1,925 tons of plastic and metal paint cans.

B3. Operations

- ◆ Worked with paint recyclers to enable reuse programs at their drop-off locations.
- ◆ Developed a working relationship with the Mattress Recycling Council (operator of California's mattress stewardship program) to plan, promote and offer cooperative drop-off events (first shared events were held after this program year ended).

- ◆ Continued efforts to establish partnerships with household hazardous waste programs through engagement at conferences, local meetings, in-person site visits, and conference calls. In addition to working diligently to bring on the remaining county programs, PaintCare served paint recovery needs at increasingly localized levels by expanding partnerships with cities, tribes, and large institutions.

B4. Outreach and Education

- ◆ Continued the comprehensive outreach campaign to educate consumers on the program, the amount and purpose of the PaintCare fee, and convenient recycling opportunities, while also promoting buying the right amount of paint and using up leftovers.

Section 3. Program Outline

Regulatory Citation

Title 14. Division 7. Chapter 11. Article 2. Architectural Paint Recovery Program

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(3) Program Outline. Describe the paint stewardship program, including information on the following topics:

(A) A description of the methods used to collect, transport, and process postconsumer architectural paint, by type, in California.

(B) Description of how each consumer of architectural paint in California had an opportunity to recycle and properly manage their postconsumer paint on a state wide basis, including the number, location, and type of collection points located in the state.

(C) Description of best management practices followed by service providers that are acting as collection points, which may include any training that the manufacturer or stewardship organization provided or required of service providers to ensure proper collection and management of postconsumer paint.

(D) A statement that the manufacturer or stewardship organization coordinated with existing household hazardous waste collection programs and retailers as potential collection points per Section 18953(a)(3)(E) and (F) during the reporting period.

A. PAINT DROP-OFF SITES, EVENTS, AND SERVICES

A1. Site Types

PaintCare continued to grow its paint collection system in both urban and rural communities. The sites and services used to collect paint from the public include the following:

- ◆ Paint retailers, including paint, hardware, and building supply stores
- ◆ HHW collection facilities and events
- ◆ Solid waste transfer stations, recycling centers, and landfills
- ◆ Material reuse stores (e.g., Habitat for Humanity ReStores)
- ◆ Paint-only drop-off events
- ◆ Large volume pick-up service for sites that have accumulated more than 200 gallons of postconsumer paint (most commonly painting contractors) [Note: Sites that receive a single or

infrequent pick-up (less than 3 per year) are referred to as “large volume pick-ups” (LVP), while sites that receive pick-ups on an ongoing basis are called “recurring large volume pick-up” (RLVP) sites.]

- ◆ Partnership with door-to-door HHW programs

PaintCare had 803 year-round drop-off sites in California at the end of the reporting period. For the purpose of defining convenience, PaintCare defines a site (including an event sites) by its physical address, and considers it to be “year-round” if the site is open at least one day per month, every month of the year. Sites that are open less frequently are considered supplemental sites. Sites that close permanently or stop participating in the PaintCare program during the reporting period are also considered supplemental and are noted as being partial-year only.

The program managed paint from 313 HHW drop-off events, held 10 paint-only drop-off events, partnered with 16 door-to-door collection programs, had 19 other supplemental sites, completed 313 LVP appointments, and served 52 RLVP sites.

Paint-only event locations were chosen to provide recycling opportunities in previously underserved areas with either high local demand or limited access based on existing drop-off locations. Suitable event sites were chosen using a combination of GIS/population data, distances from existing drop-off locations, and consultation with local HHW programs and tribal representatives.

In lieu of holding a paint-only event, PaintCare also consults with communities on alternative means of paint recovery. For example, PaintCare worked with Rancho Tehama Reserve in Tehama County to add paint collection to a community clean-up day (held after the reporting period) that also included collection of mattresses, electronics, and tires.

The following tables summarize PaintCare sites and services during the reporting period, with a comparison to the previous two reporting periods.

SUMMARY OF PAINTCARE DROP-OFF SITES AND SERVICES

YEAR-ROUND SITES	YEAR 3 FY2015	YEAR 4 FY2016	YEAR 5 FY2017
Paint Retailers	583	607	628
HHW Facilities	106	111	115
Transfer Stations / Landfills / Recycling Centers	25	N/A	N/A
Transfer Stations	N/A	30	33
Landfills	N/A	3	3
Recycling Centers	N/A	5	5
Other Sites	7	6	6
Paint Recyclers	6	6	6
Reuse Stores	5	7	6
HHW Event Site	1	1	1
Total	733	776	803
SUPPLEMENTAL SITES AND SERVICES			
HHW Events	209	247	313
Large Volume Pick-Ups	184	210	313
Recurring Large Volume Pick-Up Sites	24	38	52
Door-to-Door Programs	16	16	16
Seasonal HHW Facilities	11	10	9
PaintCare Paint-Only Events	9	5	10
Paint Retailers (partial-year only)	9	10	9
Other Sites	2	2	1
Paint Recycler (partial-year only)	1	1	0

[Notes regarding the table: (1) Only stand-alone door-to-door programs are counted. While PaintCare also partners with HHW facilities that also host door-to-door operations, such as the city of Folsom, they are not included to avoid counting these HHW programs twice. (2) "Other Sites" include fire stations, municipal public works yards, and other types of paint drop-off sites that do not fall into the primary categories.]

The locations of the year-round sites, supplemental sites, and direct pick-up sites are shown in the maps in section 4 of the report as part of the convenience analysis. A full list of all sites and door-to-door program partners is provided in the appendix.

A2. Site Configuration

All PaintCare drop-off sites accept both latex paint and oil-based paint. Direct pick-up sites may also manage both latex and oil-based paint through PaintCare, but with some limits on oil-based paint volumes.

Retail drop-off sites and paint-only drop-off events accept paint from both residents and qualifying businesses, while HHW programs, transfer stations, and some other locations may limit participation to their normal service area and customers, which may or may not include businesses. Direct pick-up sites may be households, businesses, or others (i.e., government agencies or nonprofits).

PaintCare pays for paint collection bins, training materials, transportation of paint from the site, and paint processing for all drop-off and direct pick-up sites. Spill kits are also provided to most sites. PaintCare also negotiates payment for additional services with HHW sites, transfer stations, and some other sites. Additional services include:

- ◆ Paint reuse
- ◆ Latex paint reprocessing
- ◆ Oil-based paint bulking
- ◆ Internal transportation (from remote sites to a primary location)

B. PAINT TRANSPORTATION AND PROCESSING

B1. Paint Transportation

PaintCare employed two main haulers in the reporting period for statewide transportation services: Clean Harbors Environmental Services and Stericycle Environmental Services. PaintCare also worked with select haulers that held existing contracts with HHW programs, such as Veolia Environmental Services, Waste Management, and Visions Paint. Several HHW programs also provided internal transportation services to PaintCare.

Haulers schedule pick-up appointments in two ways: (1) by request as needed or (2) on a set schedule (e.g., every Monday). Haulers are responsible for delivery of empty collection bins and program supplies and for picking up full bins from drop-off sites. Haulers provide PaintCare all data on the transportation and processing of PaintCare products taken from all sites to their final destination. Shipments of PaintCare products from HHW facilities that have partnered with PaintCare are arranged between the facilities and haulers, typically to coincide with the sites' regular shipments of other HHW. Contracted haulers and their downstream processors are subject to audit by PaintCare.

Various paint collection containers are used in the program. Most drop-off sites pack unopened paint cans into cubic yard bins. A few sites pack paint cans into 55-gallon drums and large shipping containers (20 cubic yards or larger), and some bulk (pour off) paint into drums. Full collection bins of commingled paint (latex and oil-based paint cans in the same collection container) are transported to the haulers' facilities for sorting by type. From there, latex paint is transported to a latex paint recycler and oil-based paint is transported to downstream processors. Collection containers of paint sorted by type at drop-off sites (typically by HHW

programs) are either shipped to the haulers' facilities for transportation efficiency or are shipped directly to downstream processors.

Containers with commingled paint and containers with only latex paint are shipped from sites using a bill of lading. Containers with only oil-based paint are shipped using a hazardous waste manifest.

B2. Latex Paint Processing

The following describes how latex paint was processed during the reporting period:

Reuse. Reuse programs generally screen for paint containers that are at least 50% full and in good condition and give them away free or sell them to the local community.

Recycled Paint. The largest portion of latex paint was used to manufacture recycled-content paint by HHW programs (also referred to as "reprocessing" in this report) and private paint recyclers. The following HHW programs reprocessed paint during the reporting period: Kern, Lake, Mendocino, Riverside, Salinas Valley, San Bernardino, Santa Cruz, San Rafael, San Francisco, and Sonoma. Recycled paint was given away to the local community by HHW programs and sold through domestic and international markets by private recyclers.

Decorative Ground Cover. A small portion of hardened latex paint was used by Acrylatex Coatings & Recycling in Azusa, CA, to create a product sold as a decorative ground cover. The product is made by grinding dried paint into small pieces, and then finished with colorant and a protective coating.

Concrete Products. A portion of latex paint was used by Visions Environmental in Oroville, CA, as a raw material to manufacture retaining wall blocks, landscape stones, and parking stops for passenger and commercial vehicles.

Energy Recovery. A portion of latex paint processed by Amazon Environmental in Riverside, CA, was combined with sawdust to create a fuel for a California-based cement kiln.

Alternative Daily Cover. The County of Santa Cruz used a small portion of latex paint as a component of alternative daily cover (ADC) for their landfill.

Disposal. Dry and unusable latex paint was sorted by Acrylatex Coatings & Recycling, Visions Paint, GDB International, and Waste Management and sent to various landfills.

B3. Oil-Based Paint Processing

The following describes how oil-based paint was processed during the reporting period:

Reuse. Reuse programs generally screen for paint containers that are at least 50% full and in good condition and give them away free or sell them to the local community.

Energy Recovery. Clean Harbors transported some oil-based paint to Crosby & Overton in Long Beach, CA, where it was bulked and blended to be used as a fuel.

Stericycle transported oil-based paint to their California facilities where it was consolidated and shipped to their facility in Avalon, TX, or to Rineco in Benton, AR, where it was bulked and blended to be used as a fuel.

Veolia transported oil-based paint to their Azusa, CA, facility, where it was bulked and blended and transported to Rineco in Benton, AR, to be used as a fuel.

Waste Management transported oil-based paint to their California facilities where it was consolidated and shipped to Stericycle's facilities in California and shipped to Rineco in Benton, AR, to be used as a fuel.

Incineration. Clean Harbors transported some oil-based paint for use as a fuel at their own hazardous waste incinerators in Kimball, NE, and La Porte, TX.

B4. Container Recycling

Downstream paint processors and HHW programs sent empty metal and plastic paint containers for recycling when possible. Commodity market conditions have an impact on the extent to which container recycling is feasible.

C. BEST MANAGEMENT PRACTICES FOR DROP-OFF SITES

PaintCare has contract agreements with all its drop-off sites, as well as door-to-door programs, and RLVP sites. For municipal sites that do not operate their own sites, PaintCare contracted either directly with the municipality or with their site operator.

PaintCare requires all sites to be staffed during operating hours, store PaintCare products in a secure location, and follow all procedures covered in site trainings and PaintCare site guidelines.

C1. Site Training and Guidelines

With the exception of HHW programs for which it is optional, all other sites received an on-site, in-person training. Each site receives a binder that includes program guidelines, a training presentation, record-keeping forms, and signage. The binder is required to be kept on-site and readily available. The training and guidelines cover:

- ◆ Identification of program and non-PaintCare products
- ◆ Acceptable containers
- ◆ Whom to accept paint from and how much
- ◆ Screening procedure for Very Small Quantity Generators (VSQGs) and the required log form
- ◆ Proper storage
- ◆ Spill response procedures and reporting requirements
- ◆ How to schedule a pick-up
- ◆ Required paperwork and retention schedules

Variations of these guidelines are provided to retail stores, reuse stores, transfer stations, RLVP sites, and others. Current versions of the retail site guidelines and retail training presentation are in the appendix.

Retailers and other non-HHW drop-off sites are not allowed to accept PaintCare products without original labels or not in original containers. However, HHW programs often receive unlabeled containers and products not in their original containers in the course of normal operations and have the skills and tools to identify whether the material is an acceptable program product. This sort of operational distinction forms the basis for site guidelines customized for each site type.

C2. Site Visits

Drop-off sites received site visits throughout the year by PaintCare regional coordinators to check on operations, answer questions, and provide additional program outreach materials. PaintCare has five regional coordinators in California.

C3. Paint Collection Bins

Drop-off sites are equipped with one or more collection bins in which to store PaintCare products. Sites are required to keep collection bins in a secure location that is not directly accessible to the public. Depending on the location of the bins, and preference of the site, PaintCare supplies three types of bins: two heights of fiber bins (made of corrugated cardboard) and reusable bins (plastic).

C4. Paint Acceptance Limits

PaintCare requires sites to accept at least 5 gallons of paint per customer per day. Some drop-off sites voluntarily accept more than 5 gallons; many accept up to 20 gallons per customer. A few stores accept up to 100 gallons, while some recyclers, transfer stations, and HHW sites accept unlimited volumes of latex paint.

C5. Scheduling Bin Pick-Ups

All drop-off sites are advised to order a bin pick-up before they reach their storage capacity. Sites in urban areas receive pick-ups within five business days of a request; sites in rural areas receive pick-ups within ten business days. Many sites in high volume areas have also been placed on an automatic pick-up schedule.

D. COORDINATION WITH EXISTING HHW COLLECTION PROGRAMS & RETAILERS

D1. HHW Programs

PaintCare has continued its efforts to partner with all HHW programs. As of the submission of this report, PaintCare is in the latter stages of formalizing partnerships with permanent HHW facilities in Kings, Mariposa, Modoc, and Tulare counties. Imperial County has chosen not to collect paint at their HHW facility and refers its residents and businesses to local PaintCare retail locations.

During this program year, PaintCare has continued to expand relationships in counties where partnerships already exist, including work on new/revised contracts with the counties of Alpine, Calaveras, Colusa, Kern, San Francisco and the cities of Lake Forest, Sacramento, San Rafael and Watsonville.

D2. Retailers

PaintCare maintains a comprehensive list of California paint retailers including independent and corporate stores. As the program has evolved, so have relationships with retailers. In addition to recruiting new sites through in-person site visits, PaintCare regional coordinators worked closely with store management and corporate contacts to set up new retail sites or transition stores that close or move.

Section 4. Description of Goals and Activities

Statutory Citation

Title 14. Division 7. Chapter 11. Article 2. Architectural Paint Recovery Program

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(4) Description of goals and activities based on the stewardship plan. State goals from the approved stewardship plan, the baseline from which goals were measured, and report on achievement during the reporting period. Describe any adjustments to goals stated in the approved stewardship plan that may be made for the upcoming reporting period and accompanying rationale for those changes. The annual report must include quantitative information and discussion on the following categories pursuant to PRC §48705(a) and PRC §48703(d):

(A) The total volume of architectural paint sold, by type, in the state during the preceding reporting period.

(B) The total volume of postconsumer architectural paint recovered, by type, in the state during the preceding reporting period.

(C) Disposition of postconsumer paint collected, by type and by estimated volume, including name(s) and corporate address(es) for contracted processors for each

A. PROGRAM GOALS

The California Paint Stewardship Law requires PaintCare to establish goals to reduce the generation of postconsumer paint, to promote the reuse of postconsumer paint, and for the proper end-of-life management of postconsumer paint, based on current household hazardous waste program information.

This section of the report addresses architectural paint recovery and recycling goals. Section 6 (Education and Outreach) addresses postconsumer paint reduction and reuse goals.

B. PROGRAM CONVENIENCE

As described in the Program Plan, to ensure adequate collection coverage, Geographic Information System (GIS) modeling was used to determine the number and distribution of drop-off sites needed to provide a convenient program. A report detailing updates to the GIS modeling was included in the appendix of last year's report. The following convenience criteria were applied and resulted in a goal of 750 drop-off sites:

Distribution Criterion. To provide statewide coverage, establish sites within 15 miles of 90% of the state's population.

Density Criterion. To address densely populated areas, provide an additional site for every 50,000 residents of an Urbanized Area, as defined by the U.S. Census Bureau.

B1. Convenience Level

California had a fair number of HHW programs prior to implementation of the PaintCare program. However, service levels varied across the state, and many HHW programs did not accept paint (and other hazardous waste) from businesses. With the addition of more than 600 new year-round paint drop-off sites, PaintCare has made it significantly more convenient to recycle paint in the state, especially for businesses.

The combination of new year-round drop-off sites (primarily paint retailers) and partnerships with the existing year-round HHW programs provided a site within 15 miles of 98.5% of the state's population – satisfying the distribution target of the program.

The density criterion applies to Urbanized Areas with a population of 50,000 or greater – there are 57 such areas in California. Four of the larger Urbanized Areas have been subdivided into smaller regions, increasing the number of areas to 73. GIS modeling determined the target number of sites needed within each area.

As of June 30, 2017, 22 of the 73 areas do not meet the density criterion targets. However, when including supplemental sites in the analysis, only 11 areas continue not to meet density criterion targets. PaintCare showed progress by narrowing the shortfall of sites in 10 of the 22 areas with the addition of year-round sites, and the majority need only one or two additional sites to meet the density criterion. The details for each area, including the target number of sites and coverage levels at the end of the reporting period are included in the appendix.

PaintCare worked with CalRecycle to review potential sites in each of the areas noted with a shortfall and compared against previous efforts. In addition, PaintCare reviewed existing site collection data and consulted with local contacts to assess actual on-the-ground needs not revealed by GIS data alone. PaintCare continues to use relationships with existing partners and program data to shape its site recruitment and event planning in these targeted areas.

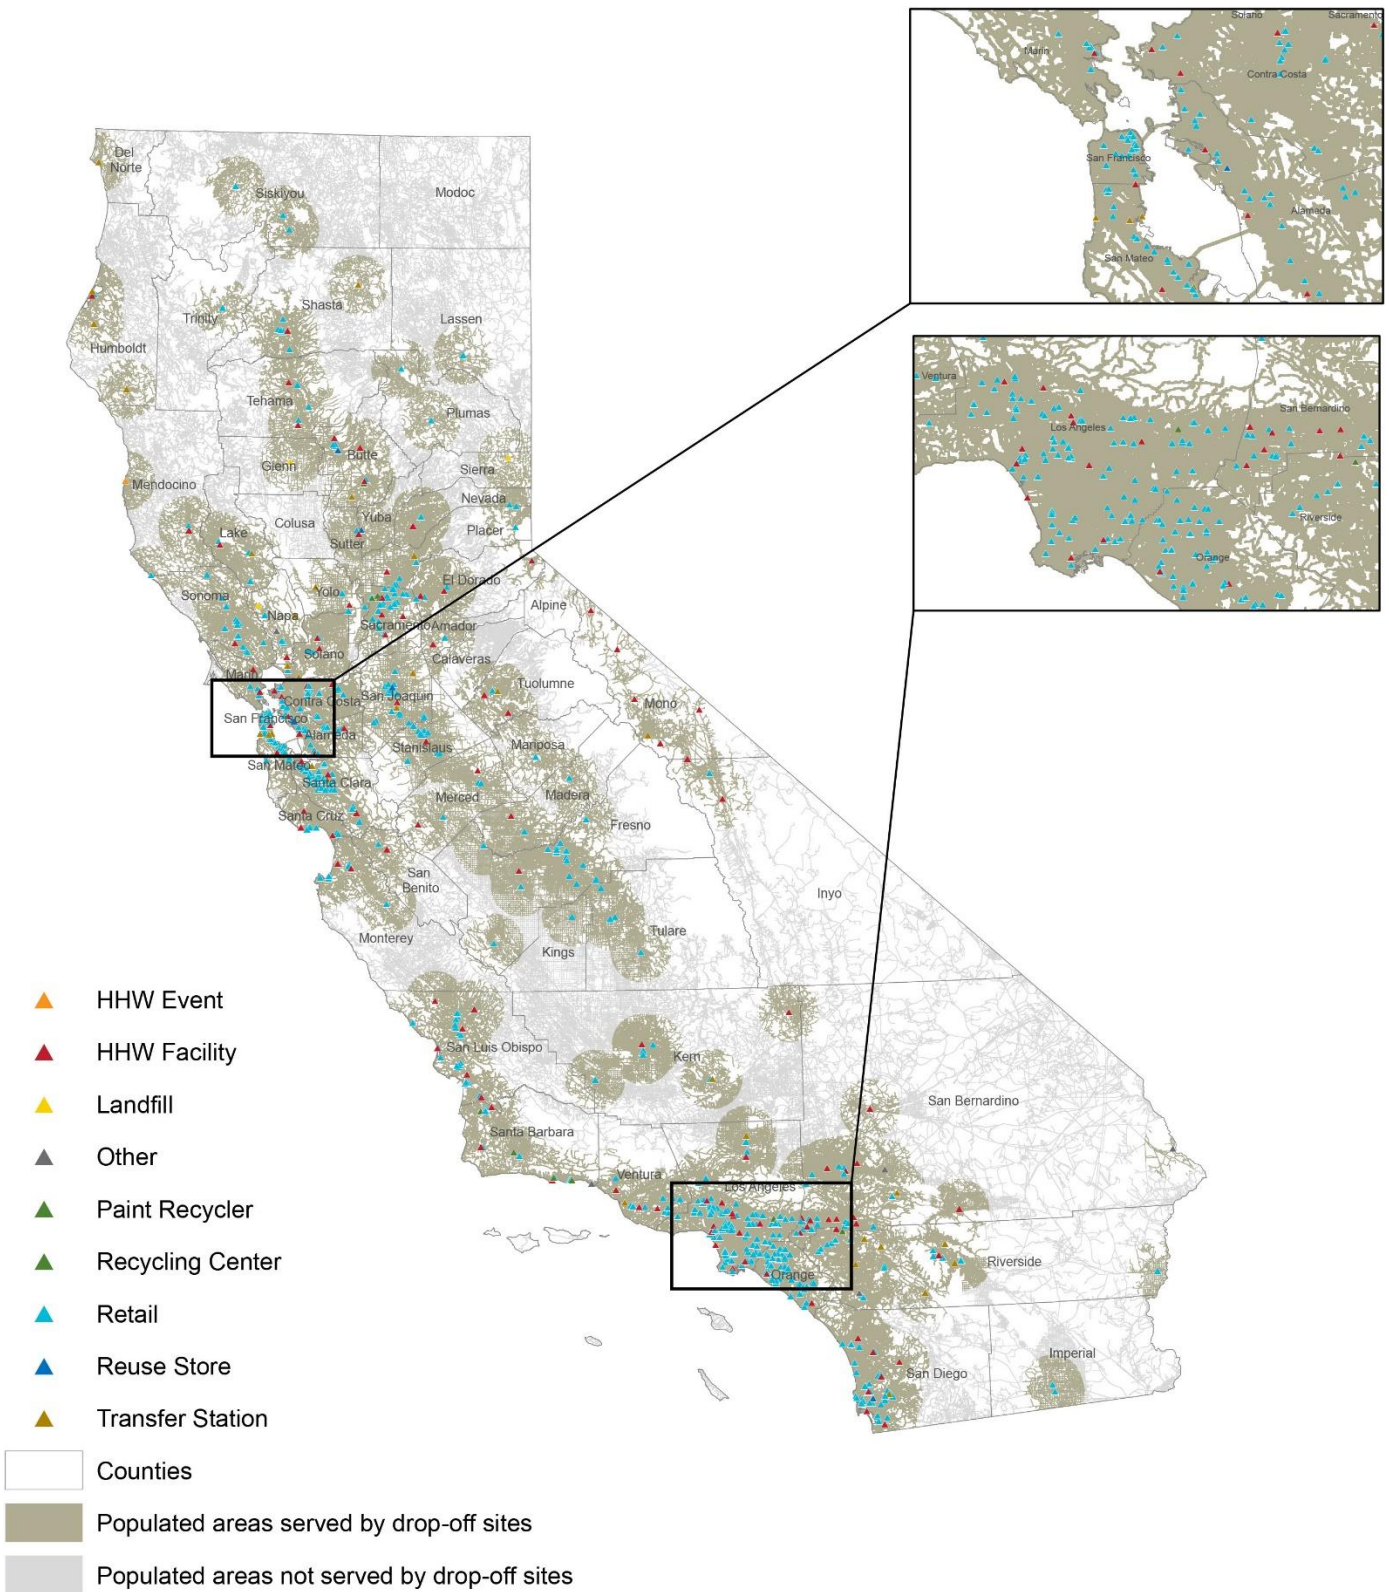

B2. Site Maps

Section 3 of this report described the number and types of paint drop-off sites offered by the program. The maps on the following pages shows their locations.

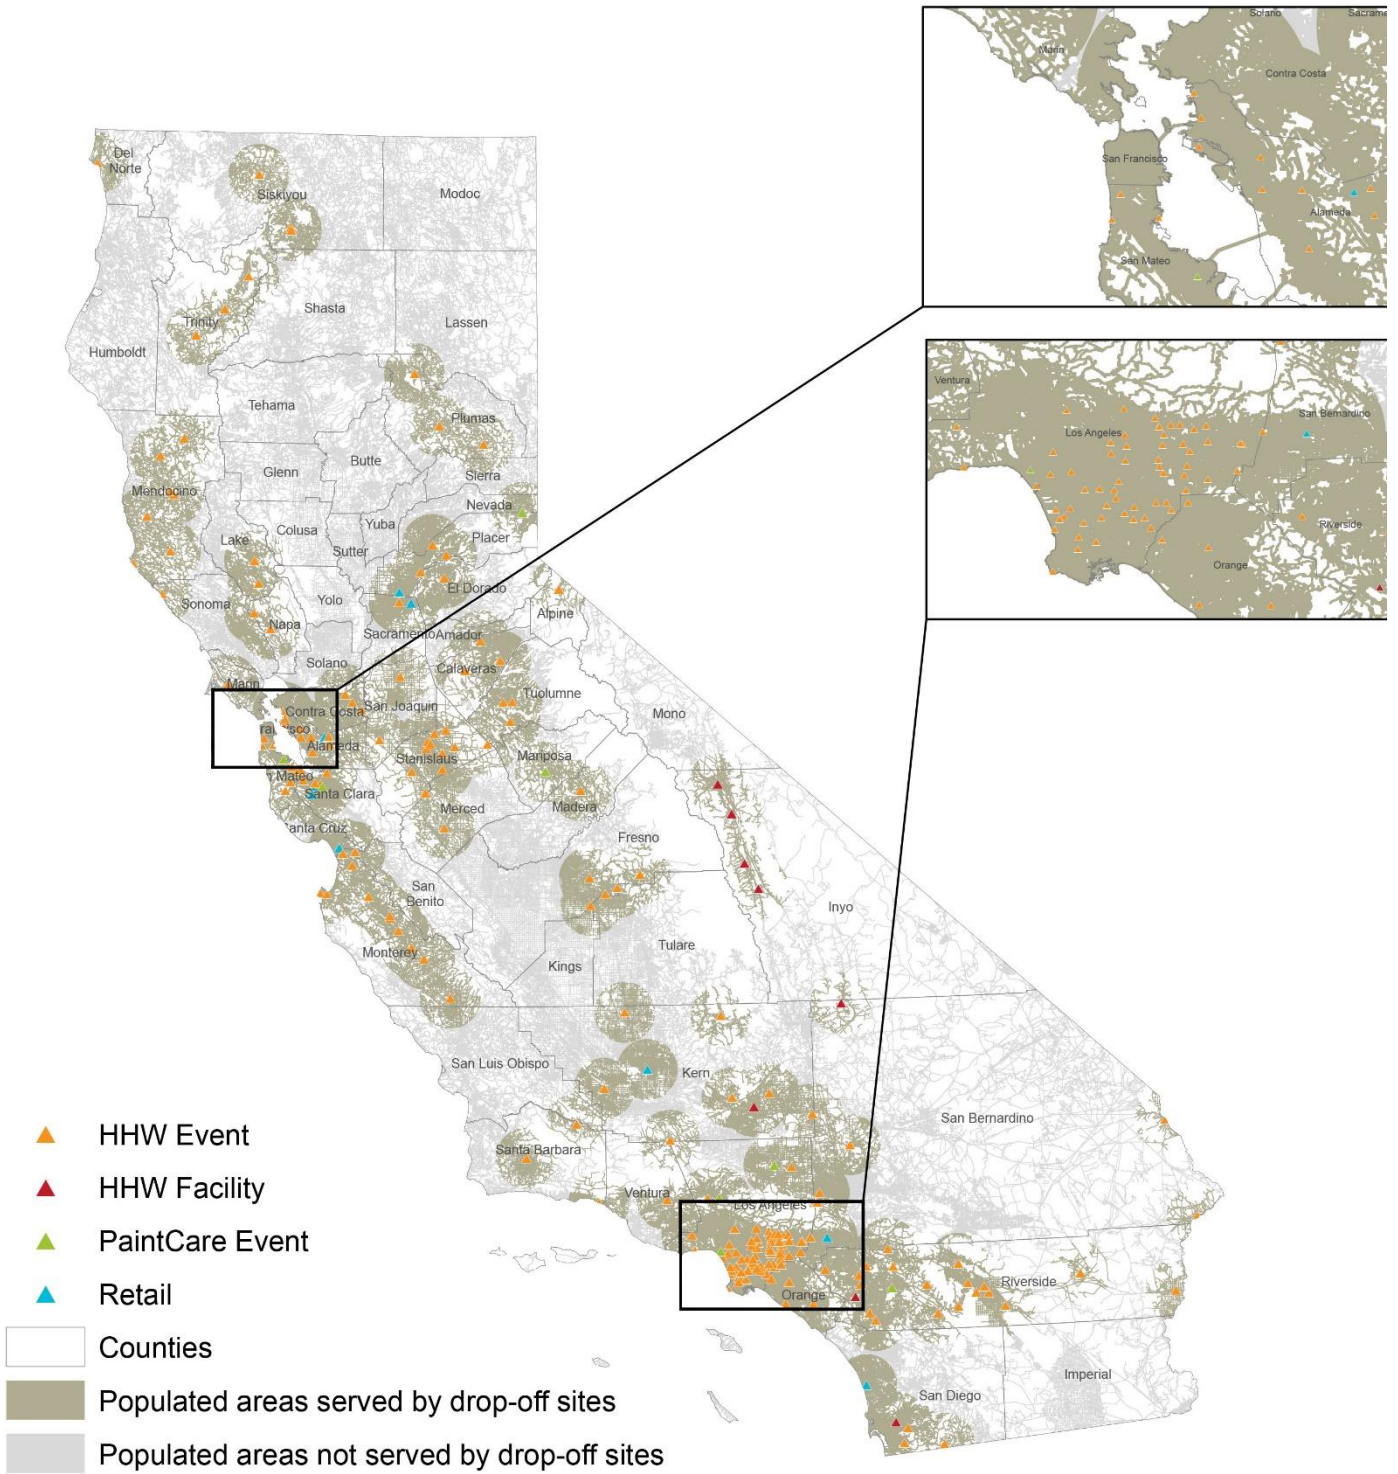

- ◆ The first map shows the locations of year-round drop-off sites and their service radius.
- ◆ The second map shows the locations of supplemental sites and their service radius.
- ◆ The third map shows both year-round and supplemental sites and their service radius.
- ◆ The fourth map shows the locations of LVP and RLVP sites.

Note: Though the direct pick-up service provides tremendous convenience for its users, these sites are not included in any convenience analysis or reporting because they are not public drop-off sites and therefore do not add to the program's convenience level for the general public. Similarly, door-to-door programs are also not included in any convenience analysis, nor are they included in any map since we do not track their service area.

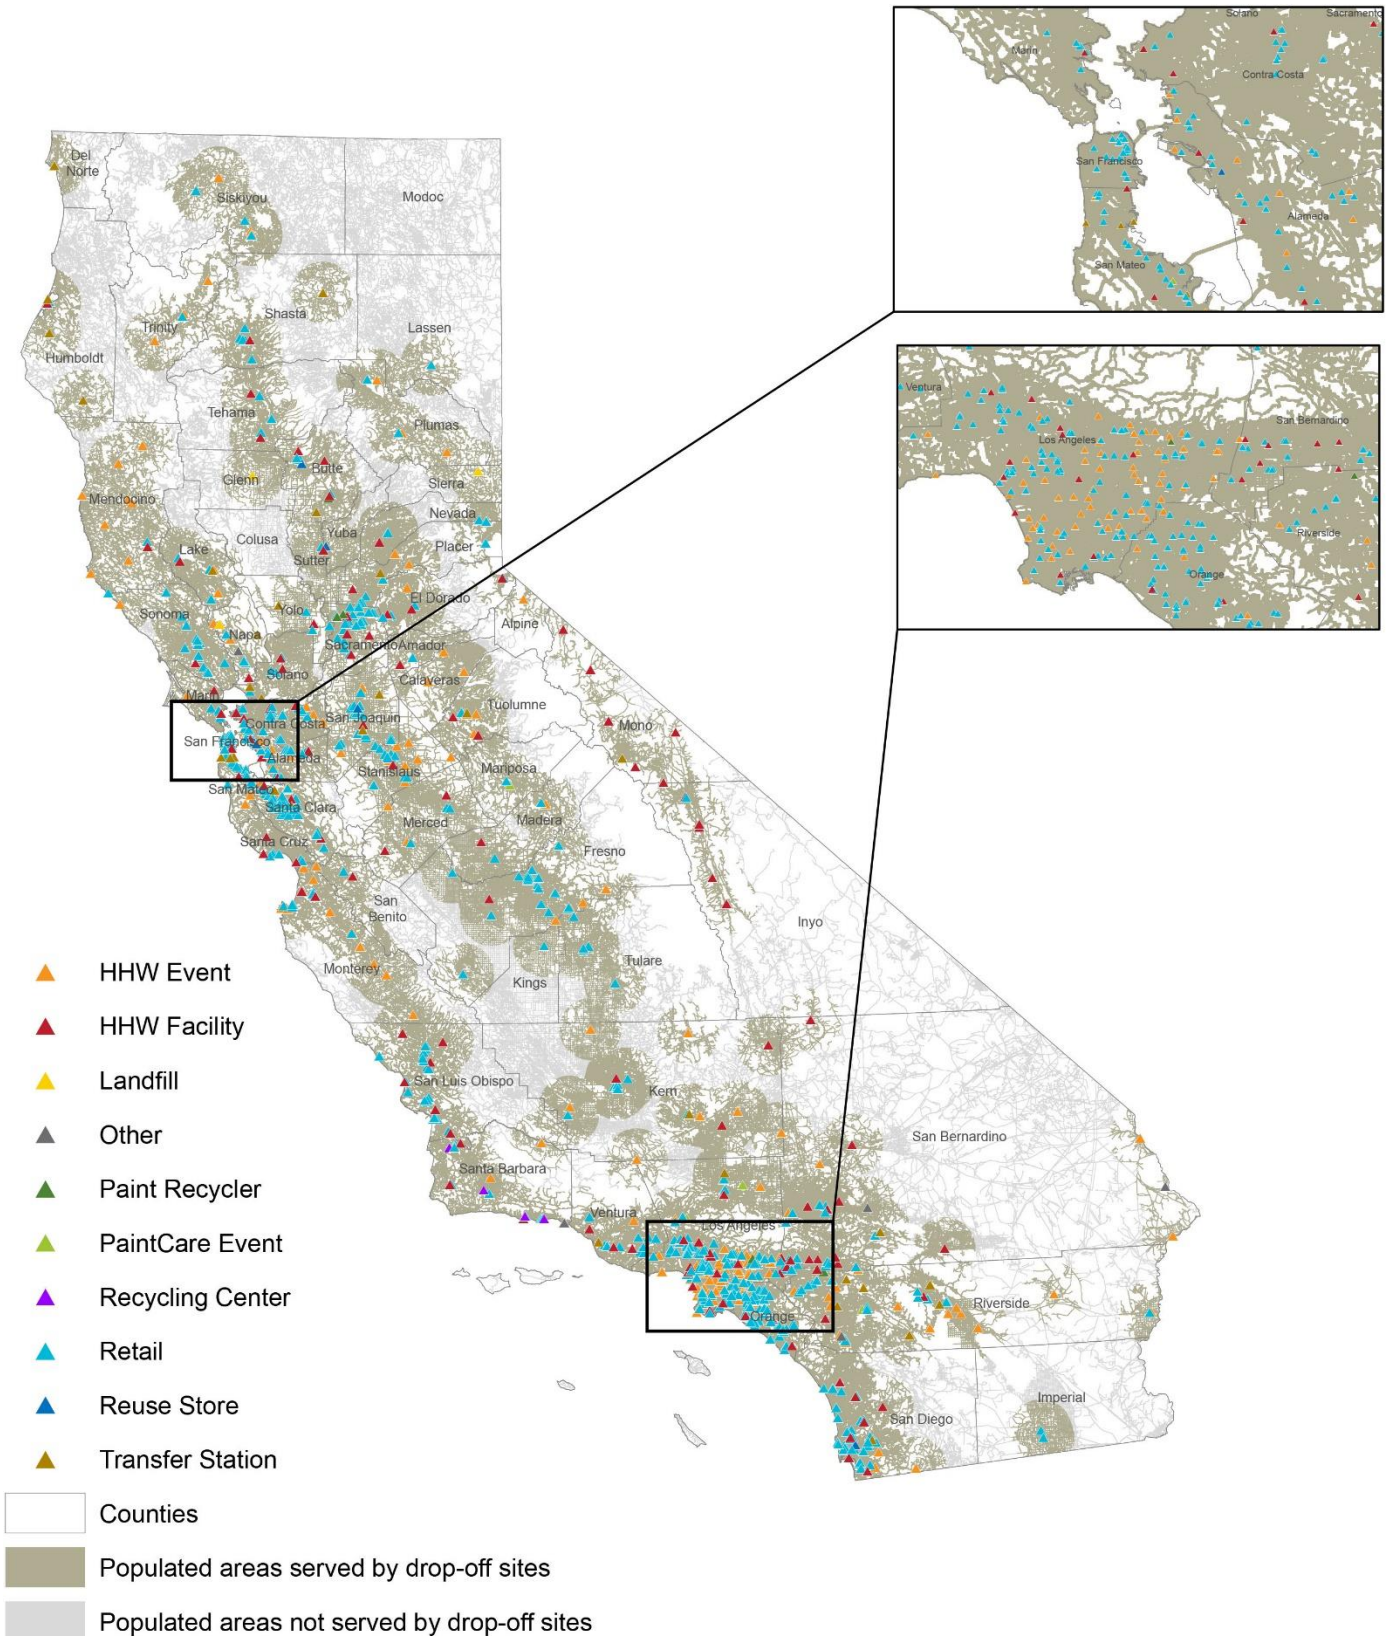

YEAR-ROUND DROP-OFF SITES

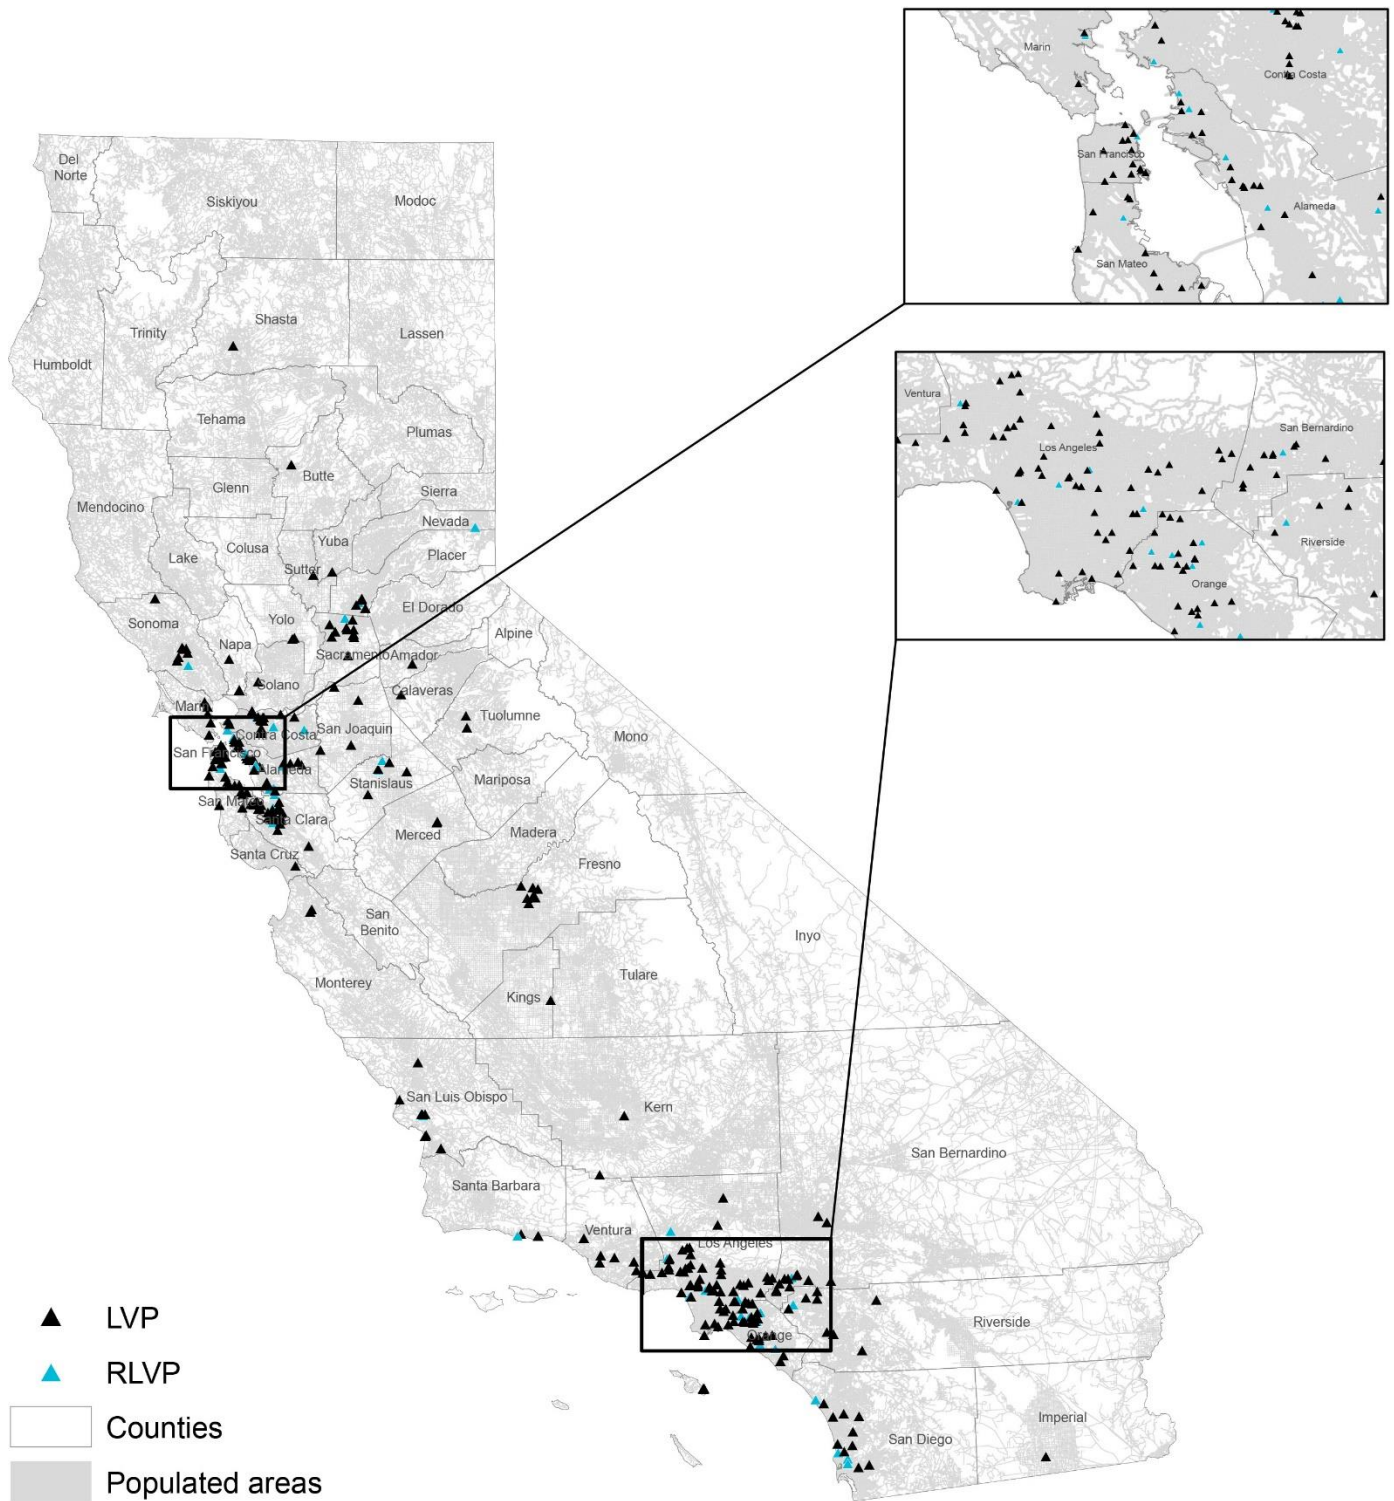

SUPPLEMENTAL DROP-OFF SITES AND EVENTS

YEAR-ROUND AND SUPPLEMENTAL DROP-OFF SITES AND EVENTS

LARGE VOLUME PICK-UP SITES

C. PAINT SALES

The volume of architectural paint sold in the reporting period was 69,244,571 gallons, nearly unchanged from the previous reporting period. The following table shows paint sales, broken out by container size categories, in each reporting period.

PAINT SALES						
CONTAINER SIZE	(8.5 MOS.) YEAR 1 FY2013	YEAR 2 FY2014	YEAR 3 FY2015	YEAR 4 FY2016	YEAR 5 FY2017	YEAR 5 FY2017
Half pint or smaller	22,460	34,282	39,346	39,560	32,586	0%
Larger than half pint to less than 1 gallon	1,424,506	2,593,694	2,580,108	2,757,695	2,536,965	4%
1 gallon	14,140,793	24,655,049	23,339,626	24,010,339	23,508,395	34%
Larger than 1 gallon up to 5 gallons	23,333,335	41,295,290	39,749,115	42,610,335	43,166,625	62%
Total Gallons	38,921,094	68,578,315	65,700,195	69,417,929	69,244,571	100%

D. PAINT PROCESSED AND RECOVERY RATE

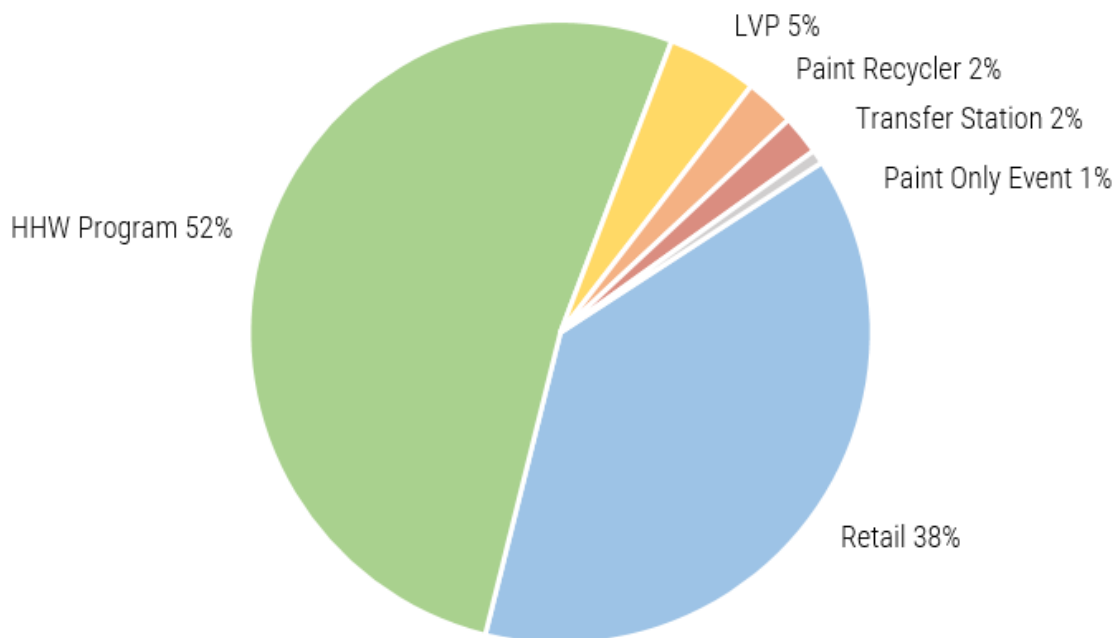

A total of 3,464,149 gallons of postconsumer architectural paint was processed during the reporting period. A small portion of paint collected during the year has not yet been processed and is not included in this report's processing and disposition figures; a gap in the time between collection and processing occurs every year, but balances out from year to year.

With nearly all HHW programs in partnership with PaintCare, year five results show steady progress toward an expected 7% recovery rate. The following table provides the breakdown of the volume of paint processed by type, as well as the recovery rate, for each reporting period. Recovery rate is the volume of paint collected and processed divided by the volume of paint sold in the same reporting period. The table also shows year-over-year changes in the volume of paint processed.

GALLONS PROCESSED AND RECOVERY RATE

	(8.5 MOS.) YEAR 1 FY2013	YEAR 2 FY2014	YEAR 3 FY2015	YEAR 4 FY2016	YEAR 5 FY2017	YEAR 5 FY2017
Oil-Based Paint Processed	77,138	360,949	459,079	498,277	622,417	18%
Latex Paint Processed	555,514	1,654,748	2,258,228	2,628,775	2,841,217	82%
Total Paint Processed	632,652	2,015,697	2,717,307	3,127,052	3,464,149	100%
Gallons Sold	38,921,094	68,578,315	65,700,195	69,417,929	69,244,571	
Recovery Rate	1.6%	2.9%	4.1%	4.5%	5.0%	
Increase in Gallons	N/A	1,383,045	701,610	409,745	342,544	
Increase in Gallons (%)	N/A	219%	35%	15%	11%	

In the reporting period, 54% of paint processed came from municipal programs (this includes HHW facilities and events, as well as municipal transfer stations and other municipal sites that collect paint). Paint from retail stores made up 38% of the volume, direct pick-up service 5%, and paint-only collection events accounted for 0.72% as shown in the following pie chart:

E. METHODOLOGY FOR DETERMINING VOLUMES

PaintCare was provided aggregate data by each service provider for total paint reused and processed.

For haulers, one of two methods was applied: (1) For data where the weight of paint processed was provided by recyclers to haulers, packaging weight assumptions were made by each hauler and removed from the total weights. Next, a conversion factor of 10 pounds per gallon was applied to weight data to obtain volume. (2) For data where actual volume of paint processed was provided by recyclers to haulers, no conversions were applied and volume was reported without modification.

For HHW programs that reprocessed latex paint, data provided to PaintCare was the volume of paint reprocessed and given out to the public. If the paint was not given away in the reporting period, even if reprocessed during the reporting period, it was not counted in the reporting period.

For reuse programs, data was calculated one of the following two ways: (1) containers were counted or weighed, then converted to gallons using an agreed-upon methodology; or, (2) container sizes or weight were tracked and converted to gallons using an agreed upon methodology.

F. PAINT DISPOSITION AND PROCESSORS

PaintCare contracts for processing and proper end-of-life management of all PaintCare products either directly or through the program's haulers. In addition, to support the waste hierarchy of reduce, reuse, recycle, PaintCare encourages and provides financial compensation for reuse and reprocessing.

As described previously, paint was managed in the following ways during the reporting period:

Latex Paint. Reuse, recycled paint, decorative ground cover, concrete products, energy recovery, alternative daily landfill cover (ADC), and disposal.

Oil-Based Paint. Reuse, fuel.

The following table and figures illustrate latex and oil-based paint disposition in the reporting period, in order of the waste management hierarchy:

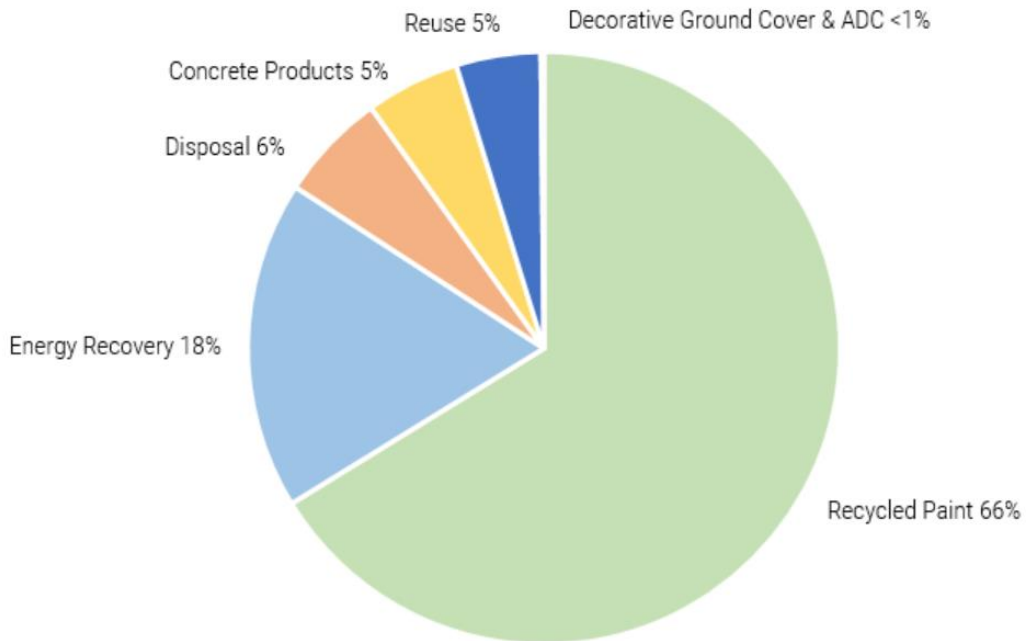

SUMMARY OF PAINT MANAGEMENT

LATEX PAINT DISPOSITION	YEAR 3 FY2015 GALLONS	YEAR 3 FY2015 %	YEAR 4 FY2016 GALLONS	YEAR 4 FY2016 %	YEAR 5 FY2017 GALLONS	YEAR 5 FY2017 %
Reuse	56,420	3	111,843	4	131,740	5
Recycled Paint	1,634,113	72	1,744,380	66	1,875,586	66
Decorative Ground Cover	3,555	<1	3,590	<1	4,844	<1
Concrete Products	109,371	5	122,034	5	146,022	5
Energy Recovery	335,623	15	488,452	19	509,210	18
Alternative Daily Landfill Cover (ADC)	4,500	<1	9,700	<1	6,300	<1
Disposal	114,646	5	148,776	6	168,030	6
Total Latex	2,258,228	100	2,628,775	100	2,841,732	100

OIL-BASED PAINT DISPOSITION

Reuse	10,571	2	11,444	2	17,184	3
Energy Recovery	189,258	41	212,229	43	261,994	42
Incineration	259,250	57	274,604	55	343,239	55
Total Oil-Based	459,079	100	498,277	100	622,417	100

LATEX PAINT MANAGEMENT

OIL-BASED PAINT MANAGEMENT

The following tables list paint processors that managed PaintCare paint during the reporting period.

LATEX PAINT PROCESSORS

Acrylatex Coatings & Recycling, Inc.	1000 W Kirkwall Rd, Azusa, CA 91702
Amazon Environmental, Inc.	5101 Raley Blvd, Sacramento, CA 95838

Rineco	819 Vulcan Rd, Benton, AR 72015

Section 5. Financing Mechanism

Regulatory Citation

Title 14. Division 7. Chapter 11. Article 2. Architectural Paint Recovery Program

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(5) Financing Mechanism. The annual report shall include the total cost of implementing the architectural paint stewardship program and an evaluation of how the program's funding mechanism operated, including whether or not the funding was sufficient to recover, but not exceed, the administrative, operational, and capital costs of the manufacturer or stewardship organization's program. Include a statement that any surplus funds are put back into the program to reduce the costs of the program, including the assessment amount. Any proposed change in the amount of the architectural paint stewardship assessment must be submitted to the department for re-approval (see §18952. Submittals). If a manufacturer or stewardship organization conducts activities that are separate from the implementation and management of the California paint stewardship program, then the annual report shall include documentation on how the collection and expenditure of assessment funds shall be kept separate from other activities of the manufacturer or stewardship organization and the methodology for distribution of shared costs. Consistent with PRC §48705(a)(5), the annual report shall include the following:

(A) Assessment amount per container

(B) Total program cost

(C) Capital costs

(D) Cost(\$)/capita

(E) Cost(\$)/gallon collected

(F) Education/Outreach (% of total program cost)

(G) End-of-life materials management (% of total program cost, with line items for reuse, transportation, recycling, fuel incineration, and proper disposal)

(H) Program administration (% of total program cost, including annual administrative fee for service payments to the department)

(I) Surplus funding, if any, and how it will be applied to reduce program costs

A. FINANCING MECHANISM

PaintCare maintained its financing mechanism and fully covered the cost of continuing to implement the program through the reporting period. The funding system places an assessment (PaintCare fee) on every container of architectural paint sold in California. The fees were set at a rate to cover but not exceed the cost of implementing the California program.

A surplus has been accumulated, due to delays that took place in the first two reporting periods to sign up HHW programs. Now that nearly all the state's HHW programs take part in PaintCare, additions to the program reserve have slowed. Based on current projections, the program is likely to start using the surplus in FY2019.

A1. PaintCare Fee

The program utilizes the following approved fee structure.

PAINTCARE FEE STRUCTURE

CONTAINER SIZE	FEE
Half pint or smaller	\$ 0.00
Larger than half pint to smaller than 1 gallon	\$ 0.35
1 gallon	\$ 0.75
Larger than 1 gallon up to 5 gallons	\$ 1.60

A2. Total Program Cost

Total program cost for the reporting period was \$32,405,697.

The independent financial audit of the California PaintCare program (referred to in the financial audit by its formal name, the California Architectural Paint Recovery Program) is in the appendix. Detailed information on program costs are included in the audit.

A3. Capital Costs

There were no capital costs during the reporting period.

A4. Cost per Capita

The cost per capita during the reporting period was \$0.83.

Cost per capita was calculated using the US Census Bureau’s 2016 estimate of California population of 39,250,017.

A5. Cost per Gallon

The cost per gallon (of paint processed) during the reporting period was \$9.36, compared to \$10.29 in the previous year.

Note that PaintCare uses and reports processed volume rather than collected volume because not all paint collected during a reporting period is delivered to a processor and/or processed during the same reporting period.

A6. Education/Outreach

Education/outreach cost for the reporting period was \$3,753,494 – 12% of total program costs.

A7. End-of-Life Materials Management

Transportation cost for the reporting period was \$3,339,063 – 10% of total program costs.

Processing cost for reuse, recycled paint, decorative ground cover, concrete products, alternative daily cover, energy recovery, incineration, and disposal was \$18,387,814 for the reporting period – 57% of total program costs.

Actual cost broken down by specific disposition is not available due to the format of transport and processing vendors’ contract pricing, which maximizes (and charges the program for) highest-best use, generally considered to be paint-to-paint recycling at this time.

The costs for each disposition method are estimated below:

DISPOSITION METHOD	ESTIMATED COST	% OF TOTAL PROGRAM COST (\$32,405,697)
Recycled Paint	\$10,275,831	31.7
Energy Recovery	\$4,225,219	13.0
Incineration	\$1,880,514	5.8
Disposal	\$920,591	2.8
Concrete Products	\$800,015	2.5
Reuse	\$232,519	0.7
Alternative Daily Landfill Cover	\$26,586	0.1
Decorative Ground Cover	\$26,539	<0.1
Total	\$18,387,814	56.7

A8. Administrative Costs

Administrative costs (also called indirect costs or corporate expenses) are those that are shared by all jurisdictions that have passed a paint stewardship law, such as salaries for DC-based corporate staff who work on activities for all states. Other examples of corporate expenses include construction of data management systems, legal fees, and general communications.

The corporate allocation for each PaintCare jurisdiction is the proportion of its population relative to the population of all PaintCare jurisdictions combined. California's share of the corporate activity allocation was 64% at the end of the reporting period. Administrative costs were \$2,544,998 or 8% of total program costs.

Service payments to CalRecycle are not presented as an administrative expense in the audited financial statements, but rather as a direct California operational expense. Payment to CalRecycle for the reporting period was \$154,935 or <1% of total program costs.

A9. Surplus Funding

The net assets of the California program at the end of the reporting period were \$43,762,360. Net assets are also referred to as accumulated surplus. The following table summarizes program revenue and expenses for each reporting period.

FINANCIAL SUMMARY

REVENUE	YEAR 1 FY2013	YEAR 2 FY2014	YEAR 3 FY2015	YEAR 4 FY2016	YEAR 5 FY2017
PaintCare fees	\$20,066,570	\$35,237,602	\$ 33,834,028	\$ 35,503,835	\$34,996,367
Total revenue	20,066,570	35,237,602	33,834,028	35,503,835	\$34,996,367
EXPENSES					
Operations	8,159,652	16,182,408	24,280,786	29,542,078	29,860,699
Administrative	1,154,644	1,485,130	1,964,196	2,635,625	2,544,998
Total expenses		17,667,538	26,244,982	32,177,703	32,405,697
Investment allocation	n/a	n/a	62,378	1,002,624	1,728,877
Change in net assets	10,752,274	17,570,064	7,651,424	4,328,756	4,319,547
Net assets, beginning of the reporting period	(859,706)	9,892,568	27,462,632	35,114,056	39,442,812
Net assets, end of the reporting period	\$9,892,568	\$27,462,632	\$ 35,114,056	\$ 39,442,812	\$43,762,360

A10. Five-Year Projections

Using observations from the Oregon program, which has continued to process more paint into its eighth year, PaintCare believes that volume in California will also continue to increase by 6-10% per year. PaintCare observed this year that paint collections increased even as sales and number of sites have been relatively stable. The status of net assets and their use is reviewed below, with projections based on the following assumptions:

- ◆ Program revenue remains approximately the same as the current reporting period, with an estimated yearly allowance for investment allocation that declines yearly corresponding with a decline in net assets.
- ◆ The cost of collection support, processing, transportation will increase by an average of 6% per year, based predominantly on past indicators of increased expenses linked to increased collection volume.

FIVE YEAR PROJECTIONS

	PROJECTION					
	YEAR 5 FY2017	YEAR 6 FY2018	YEAR 7 FY2019	YEAR 8 FY2020	YEAR 9 FY2021	YEAR 10 FY2022
Revenue and Investment Allocation	\$ 36,725,224	\$ 35,786,011	\$ 35,726,501	\$ 35,672,941	\$ 35,624,738	\$ 35,581,354
Total expenses	32,405,697	34,372,413	36,146,678	38,015,398	39,984,242	42,059,216
Change in net assets	4,319,547	1,413,598	(420,177)	(2,342,457)	(4,359,505)	(6,477,862)
Net assets, beginning	39,442,812	43,762,359	45,175,957	44,755,779	42,413,322	38,053,817
Net assets, ending	\$ 43,762,359	\$ 45,175,957	\$ 44,755,779	\$ 42,413,322	\$ 38,053,817	\$ 31,575,955

The projection anticipates the program achieving a 7.0% recovery rate by year 10. PaintCare continued to monitor the net assets balance closely, knowing that revenue and expenses need to be balanced over the coming years to stabilize the projected annual decline in net assets, and to maintain the target reserve amount of 50%.

B. RESERVES POLICY

Reserves (or net assets) are the accumulated surplus of the program.

PaintCare has a Reserves Policy to define and quantify the reserves in each state program. The policy defines the reserves as “net assets” and establishes a minimum threshold of 16% of annual expenses (i.e., at least two months of operating expenses); a target reserve amount of 50% of the annual expenses, and a maximum amount of 75% of annual expenses. This accumulated balance allows PaintCare programs to continue to operate in times of either higher than expected paint collection or lower than expected retail paint sales/revenue – or a combination of the two.

At the end of the reporting period, the program had exceeded the target reserve. However, despite the large surplus, until a consistent level of paint collection is reached, it is premature to consider changes to the current fee structure. The California program is still in a growth phase and PaintCare anticipates increasing collection volumes and costs for several years as awareness about the program increases and additional sites join the program.

C. INVESTMENT ACTIVITY

Beginning in December 2014, PaintCare invested a portion of its accumulated surplus in a financial portfolio. PaintCare maintained its investments for all programs in a single portfolio. Claim of ownership in the investment portfolio was shared by all programs and allocated among the programs based on relative net asset balances. Programs that had positive net asset balances had a claim on the assets invested in the portfolio; programs with negative net asset balances carried a liability representing an amount due to the portfolio.

D. FORMATION OF LIMITED LIABILITY COMPANIES

In 2015, to better separate each state program in terms of liability and financial independence, PaintCare began implementing a plan to transition operations for each program from PaintCare Inc. to a wholly-owned subsidiary company dedicated to managing that particular program. By January 2016, PaintCare had formed sole-member limited liability companies in Connecticut, Oregon, and Rhode Island and established individual bank accounts for each of those new companies. At this time, these programs moved their net asset balances, including gains earned from the investment portfolio, into those individual bank accounts and ended their programs' participation in an investment portfolio. The remaining programs for which PaintCare has not yet established dedicated companies continue as before. PaintCare plans to transition the remaining jurisdictions to sole-member limited liability companies over the course of the next two years.

Section 6. Education and Outreach

Regulatory Citation

Title 14. Division 7. Chapter 11. Article 2. Architectural Paint Recovery Program

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(6) Education and Outreach. Describe educational and outreach activities in context of those identified in the stewardship plan. Provide a description of educational materials that were provided to retailers, consumers, and contractors during the reporting period and provide electronic examples of these materials. Identify any method(s) used to determine the effectiveness of educational and outreach efforts (e.g., surveys, hits on specific web pages, number of participants at events, etc.), if applicable. These education and outreach materials may include, but are not limited to, any of the following per PRC §48703(e):

(A) Signage that is prominently displayed and easily visible to the consumer.

(B) Written materials and templates of materials for reproduction by retailers to be provided to contractors and consumers at the time of purchase or delivery or both.

(C) Promotional materials or activities, or both, that explains the purpose of paint stewardship and the means by which it is being carried out.

(D) Links to website(s) created and maintained by the stewardship organization.

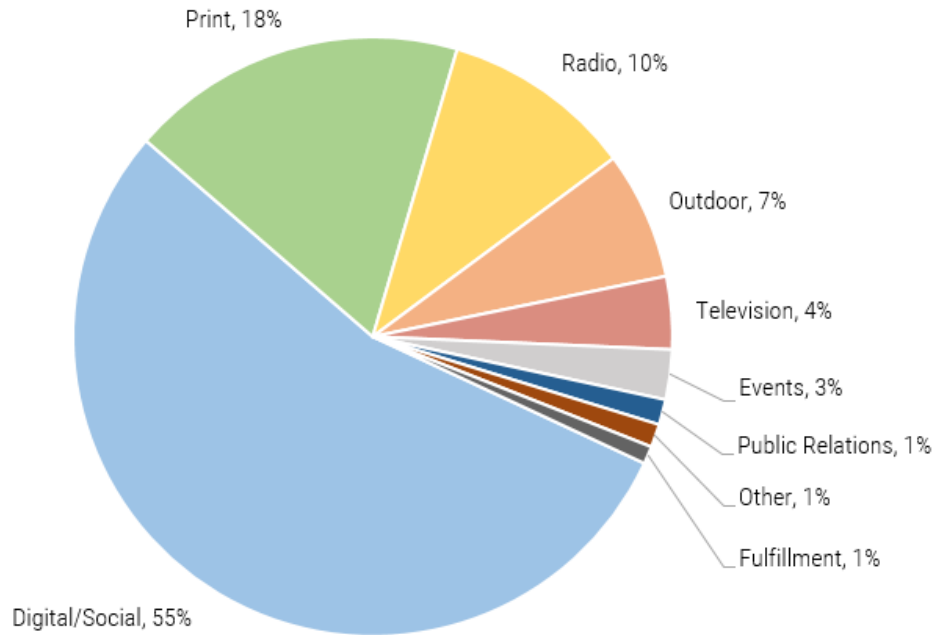

INTRODUCTION

PaintCare's education and outreach efforts focus on building awareness of the program and encompass four primary messages: reduce, reuse, recycle – which PaintCare has modified to “Buy right, Use It Up, Recycle the Rest” – and proper disposal. PaintCare is committed to providing robust and successful education and outreach using a variety of communication tools. The outreach activities conducted during the reporting period are described in this section.

Most creative work is done by PaintCare's in-house communications team. PaintCare's marketing firm for the California program, Civilian Agency of San Diego, handles most of the advertising purchases. PaintCare focuses on Demographic Market Areas (DMA) to customize the mix of media purchasing to the populations of each DMA. PaintCare, through its marketing firm, developed plans for each of the 14 DMAs incorporating all 58 counties in California. The analysis considered different audiences in each market and determined the appropriate mix of media to reach the most people.

The main objective of outreach was to drive the public to PaintCare's website to find a drop-off site using PaintCare's site locator search tool. The relative amount of spending dedicated to outreach activities about the California program are summarized in the following pie chart:

RELATIVE SPENDING ON OUTREACH ACTIVITIES

A. SIGNAGE DISPLAYED TO CONSUMERS

PaintCare developed a number of signs for drop-off sites to help them inform the public about the program, screen PaintCare products, and address concerns they have about illegal dumping. Drop-off sites may order the following signs: PaintCare products (English/Spanish), Program Partner, Combination (program partner with simplified products list), No Dumping, and Please Wait for Assistance. Larger images of these signs have been included in previous annual reports. These signs can now be found online at www.paintcare.org/signs.

B. WRITTEN MATERIALS FOR CONTRACTORS AND CONSUMERS

B1. Fulfillment of Orders for Written Materials

PaintCare continued to distribute printed materials to retailers to help inform consumers in their stores. These materials include program brochures, mini cards, fact sheets (for painting contractors and the LVP service), and program posters.

During the reporting period, PaintCare fulfilled 398 requests for materials by mail, and the California regional coordinators delivered materials in person during site visits. PaintCare distributed a total of 49,500 brochures, mini cards, fact sheets, and posters during the reporting period.

PaintCare also provided counter mats to retailers to use in the paint department to reference when customers have questions. The counter mat is popular with retailers and more likely than the poster to be seen by customers while they wait for their paint to be mixed. This year the counter mat used in all states was redesigned to accommodate a state-specific insert with customized information.

Larger versions of the materials shown below are included in the appendix and available on PaintCare's website.

Brochure, mini card, program poster, counter mat, and fact sheets

B2. Translations

PaintCare translates consumer brochures and fact sheets into languages of known ethnic groups in the state (especially those widely involved in the painting business) and upon request from paint retailers or other stakeholders. This year PaintCare translated the program brochure to Armenian for several retailers in Los Angeles County. The California program brochure is now available in six languages besides English.

Two widely-used fact sheets are not program-specific, and the same version is used in all programs. The fact sheet for the LVP service is available in Spanish. The non-English fact sheets for painting contractors are available in 11 languages; some are due to requests from California and others are due to requests from other PaintCare programs.

B3. Additional Fact Sheets for Stakeholders

Several fact sheets are available on PaintCare’s website for different target audiences, and printed versions are distributed upon request. Minor updates are made throughout the year. Current versions of these fact sheets on PaintCare’s website:

- ◆ How Does the California Paint Stewardship Program Affect Paint Retailers?
- ◆ How to Become a Retail Drop-Off Site
- ◆ About PaintCare Fees
- ◆ Information for HHW Programs
- ◆ Information for Solid Waste Transfer Stations, Recycling Facilities and Landfills
- ◆ Reuse Programs – Compensation and Reporting

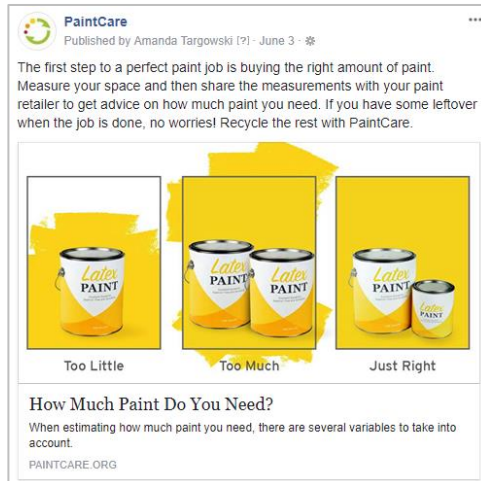

C. PROMOTIONAL MATERIALS/ACTIVITIES EXPLAINING PRODUCT STEWARDSHIP

C1. Press Releases and Earned Media

PaintCare issued a statewide press release in February 2017 about last year’s annual report and a number of local media releases in areas where PaintCare events were being held. The releases garnered ten short online articles. One was featured on RecyclingInternational.com, and the others were on local news sites, such as the *Santa Clarita Gazette* for an event in Santa Clarita, and the *Sierra Sun Times* for an event in Mariposa.

C2. Facebook

PaintCare’s Facebook presence increased significantly during the reporting period. Facebook posts are geared to painting tips, using up leftover paint, buying the right amount of paint for a project, home improvement, PaintCare drop-off events, and program milestones, in addition to recycling paint and finding a PaintCare drop-off site. During the reporting period the number of Facebook followers increased from about 50,000 to more than 89,000. More than half of PaintCare’s followers are from California. Two examples of PaintCare’s Facebook posts are shown below.

C3. Commercial Radio, Audio Streaming, and Podcasts

Traffic radio sponsorships ran in Bakersfield, Los Angeles, and San Diego in July, August, and September. February through April, PaintCare used streaming audio and podcasts instead of traffic radio. At the start of the reporting period, PaintCare produced a new audio commercial based on the following script. This spot was used for traffic radio, audio streaming and podcasts:

"Is your garage full of old paint that you'll never use? I know mine is. Avocado Green, Hot Pink, Antique White? (That is a nice shade of white, though.) You know, it's easy to recycle paint all over California. Keep what you need and recycle the rest. Find a drop off site near you at paintcare.org"

C4. Public Radio

Spots on NPR ran in Eureka, Fresno, Los Angeles, Monterey, Sacramento, San Diego, San Francisco, Santa Barbara, and the California portion of the Medford media market in July, August, and September. Each station has slightly different requirements for messages. An example of a public radio script follows:

"<Station Name> is brought to you by PaintCare. With over 800 year-round drop-off locations throughout the state, PaintCare makes it easy for households and businesses to recycle their leftover paint. PaintCare – Keep what you need and recycle the rest. Learn more at PaintCare dot org."

C5. Print Advertising

Shared Mail. PaintCare used RedPlum circulars wherever they were available to list local drop-off sites. RedPlum is a shared mail company that provides print-based advertising throughout most of California that has proven to be an excellent alternative to newspaper advertising. In most cases, RedPlum advertising can be more targeted than newspapers, because clusters of ZIP codes are grouped together and can receive a custom advertisement in mail circulars. A different ad design was used to list only those PaintCare drop-off sites located in the same ZIP codes as a circular's distribution area. In some areas where a large percentage

of the population was Latina/o, and retailers had requested brochures or signage in Spanish, the ads were bilingual as shown in the right ad below.

Newspaper. In parts of the state where shared mail advertising through Red Plum was not available, PaintCare placed ads with sites listed in local newspapers, as shown in the ad below, left. PaintCare also used newspaper advertising to promote each PaintCare event held during the reporting period.

PAINT RECYCLING MADE *easy*

Do you know where to recycle your paint?
There are hundreds of PaintCare sites in California where households and businesses can recycle unwanted paint, stain and varnish for free all year-round, including this site in Esparto:

Esparto Convenience Center
27075 County Road
(530) 666-8856
Wed & Sat 9:30 am - 3:30 pm
Open to all Unincorporated Yolo County residents and businesses
Businesses: latex only

TO FIND OTHER DROP-OFF LOCATIONS:
www.paintcare.org • (855) 724-6809

All PaintCare sites accept up to 5 gallons per visit (some take more). Please call ahead to confirm business hours and ask if they can accept the type and amount of paint you would like to recycle. Sites do not accept: aerosols (spray paint) or leaking, unlabeled and empty containers.

PAINT RECYCLING MADE EASY RECICLAJE DE PINTURA HECHO FÁCIL

It's Free! / ¡Es Gratis!

Do you know where to recycle or dispose of your paint?
There are hundreds of PaintCare sites in California where households and businesses can recycle or dispose of unwanted paint, stain and varnish all year round, including these sites in your area.

¿Sabes a donde puedes llevar tu pintura para reciclaje o desecho?
PaintCare tiene cientos de lugares en California donde los hogares y negocios pueden llevar su pintura, tintura, o barniz no deseado para reciclaje o desecho durante todo el año, incluyendo estos sitios en su área:

MERCED Kelly-Moore 1637 V Street (209) 722-3508	LOS BANOS Sherwin-Williams 2260 E Pacheco Boulevard (209) 509-9900
Sherwin-Williams 2160 G Street (209) 723-9936	Billy Wright Landfill 17173 S Billy Wright Road (209) 723-4481
Highway 99 HHW Facility 7040 N Highway 99 (209) 723-4481	Merced County Households & Businesses: Mon - Fri 8 am - 3:30 pm, Sat 8 am - 12 pm
Merced County Households & Businesses: Mon - Fri 7 am - 3:30 pm, Sat 8 am - 12 pm	

TO FIND OTHER DROP-OFF LOCATIONS:
www.paintcare.org • (855) 724-6809

All PaintCare sites accept up to 5 gallons per visit (some take more). Please call ahead to confirm business hours and ask if they can accept the type and amount of paint you would like to recycle. Sites do not accept: aerosols (spray paint) or leaking, unlabeled and empty containers.

¿Quieres información sobre el reciclaje de pintura en español?
Visite: www.paintcare.org/es.

Newspaper (left) and bilingual Red Plum (left) advertisements to promote drop-off sites

Magazines: This year PaintCare ran a set of magazine ads about recycling leftover paint, storing paint properly, buying the right amount of paint, and using up paint. The ads ran in a variety of magazines, including the AAA magazines (Westways and Via) and MNI, a group of publications that includes Country Living, Elle Décor, House Beautiful, More, Real Simple, This Old House, and Traditional Home, and a group of Spanish magazines. PaintCare also sponsored a wraparound ad (known as a “belly band”) on the publication for a conference in the Spring 2017 for the California Building Owners and Managers Association (BOMA) to reach property managers about drop-off locations and promote the LVP service.

Buy right. Measure your space, then talk with the professional at your local paint store to make sure you're buying just the right amount.

Store right. Don't be misled with the can. Use a rubber mallet instead of a hammer to tap on the lid to prevent dents and seal the can properly.

Use it up. Use up your extra paint on small projects or on a piece of furniture that needs a update.

Recycle the rest. If you can't find a way to use it up, it's time to let a PaintCare site where you can drop off your paint for recycling.

There are lots of ways that you can help reduce leftover paint.

Donate To Schools.

PaintCare www.paintcare.org • (855) 724-6809

Most of us have some. Here's what to do with it.

Leftover Paint

Buy Right
Once you've picked out the color, how do you know how much paint to buy?

The best way to buy the right amount is to measure the width and height of the walls, then ask your paint retailer for advice.

Be sure to tell them about the current color, wall texture and condition, and whether the walls have been primed or previously painted.

They'll help you figure out how much paint you need.

Store Right
When you find yourself with extra paint, store it in a dry, cool and dark place indoors so it will stay in good condition for touch-ups or other projects.

Be sure to take care of the rim of the can - wipe it clean before you close it to get a tighter seal, and close it with a rubber mallet (instead of a hammer) so it won't get damaged.

Keep paint away from moisture so the cans don't rust, and keep it from freezing so it doesn't spoil.

Pass It On
Have good paint leftover but have no use for it? Pass it on to someone who can use it! You never know who may want it. Odds are a friend or family member needs paint for a project they want to tackle.

You could even donate your leftover paint to a community group that participates in housing projects.

Know any local artists? Ask if they could use your extra paint for their next masterpiece. Or try listing it online or selling it at your next garage sale.

Use It Up
Containers with less than a gallon can spruce up a small room or create accent walls. Small amounts of paint (quarts or less) are great for painting furniture, using as a base coat for a smoother finish, or changing up some of your decor like lamps or frames.

Recycle The Rest
Once you've given it your best to use up or give away leftover paint, recycle the rest with PaintCare. With more than 1,700 drop-off locations in California, Colorado and a few other states, recycling paint is getting a whole lot easier.

And it's free! Most drop-off locations are paint stores that accept up to five gallons per visit. (Some take more - just ask them!)

Paint manufacturers created the nonprofit PaintCare to make paint recycling easier. It states that pass paint should be used. www.paintcare.org or (855) PAINTCARE.

paintcare

Is your Storage full of old paint?

Keep what you need.
Recycle the rest. [It's free]

Recycling your leftover architectural paint is easy.
Simply drop it off at a PaintCare drop-off location near you.
Most locations are at paint and hardware stores.

Have a LOT of paint? No worries. If you have 300 or more gallons, we'll pick it up at your location without charge.

To find a drop-off location or to learn more about our pick-up service, visit www.paintcare.org or call (855) 724-6809.

All PaintCare drop-off sites accept up to 5 gallons of architectural paint, stain or varnish per visit (some take more). Please call ahead to confirm business hours and ask if they can accept the type and amount of paint you want to recycle. Sites do not accept aerosols (spray paint) or leaking, unlabeled and empty containers.

PaintCare is a nonprofit established by architectural paint manufacturers to implement paint stewardship programs in California and eight other "PaintCare States" with paint stewardship laws. The program is funded by a nominal fee on the sale of each container of paint sold in these states.

HGTV Magazine Ads (top) and BOMA belly band (bottom)

C6. Television and Online Video

PaintCare ran cable television spots in the Fresno area in July and August 2016, using the “Goldilocks” commercial showing a couple that first had too little paint, then they had too much, and then they took measurements and asked for help at their paint store, finally getting it “just right.”

In November and December 2016, PaintCare used the video completed at the end of the previous reporting period titled “Touchups” for television in Chico, Eureka, Sacramento, and Santa Barbara. The video shows a woman whose child had drawn on the wall. When she goes to get some of the paint she had been saving for touchups, she sees that she has much more leftover paint than she needs and recycles the rest.

Still Frames from “Touchups” video

C7. Online Advertising

PaintCare dedicated about 55% of its media budget to online advertising during the reporting period. Two versions of the “Touchups” television commercial (15 and 30 seconds) mentioned above were used as “pre-roll” videos (those that a user sees when they are on a website before they can proceed) or embedded into online advertising. Online banner ads in a variety of standard dimensions were also used in all markets throughout the year. Two examples are shown below.

C8. Outdoor Billboards and Bus Signs

Throughout the year, PaintCare ran billboards in several markets, including Chico, Fresno, Los Angeles, Sacramento, San Francisco, and Yuma; additionally, a mobile billboard was utilized in San Diego. Bus signs were used in Bakersfield, Fresno, Palm Springs, and San Francisco. Examples of a bus sign and a mobile billboard used during the reporting period are shown below.

Bus ads in San Francisco (left) and mobile billboard in San Diego (right)

C9. Joint Outreach Projects with Local Government

PaintCare welcomes the opportunity to work with local HHW programs on outreach projects. PaintCare will provide creative support and funding in the form of reimbursement for projects that are preapproved. During the reporting period, PaintCare supported two requests for joint projects.

- ◆ City of Palm Desert: PaintCare supported a portion of a postcard to promote an HHW event with additional paragraph to promote the use of PaintCare’s year-round PaintCare drop-off sites.
- ◆ Humboldt Waste Management Authority: PaintCare designed and provided special signs to place near their transfer station’s scalehouse to encourage customers to visit their reuse program.

HOUSEHOLD HAZARDOUS WASTE (HHW) ONE-DAY COLLECTION EVENT
for Palm Desert Multifamily Residents* and Conditionally Exempt Small Quantity Generators (CESQGs)** only
Identification required for proof of residency or copy of current Palm Desert business license required for businesses.

ACCEPTABLE ITEMS

- Electronic Waste
- Latex/Oil-Based Paint
- Used Oil and Filters
- Pesticides
- Antifreeze
- Fluorescent Tubes/Bulbs
- Household Cleaners
- Pool Chemicals
- BBQ & Camp Size Propane
- Aerosol Cans
- TVs and Computers
- Auto/Household Batteries
- Garden Chemicals
- Home-Generated Sharps

UNACCEPTABLE ITEMS

- Asbestos
- Radioactive or Remediation Material
- Appliances
- Explosives or Ammunition
- Medical/Infectious Waste (except Home-Generated Sharps)
- Containers larger than 5 gallons or weighing more than 50 pounds
- Tires
- Trash
- Medication

Household Hazardous Waste Only
Each load shall not exceed 15 gallons of liquid waste or a total of 125 pounds—Multiple trips are allowed
Containers shall be marked and secured to prevent leaks
Containers holding gasoline will not be returned

* Multifamily Residents are those that live in apartments or condominiums.
** Conditionally Exempt Small Quantity Generators (CESQGs) are businesses that generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. For more information on CESQG requirements, see Code 40 CFR 261.5.

HHW event postcard for Palm Desert (left) and sign for Humboldt Waste Management Authority (right)

D. WEBSITE

Nearly all PaintCare advertising and outreach efforts direct the public to PaintCare’s website for more information and to find a local paint drop-off site. PaintCare’s website is updated throughout the year. The website is easy to navigate and features topics on buying the right amount of paint, storage tips, reuse tips, and recycling. It has special pages for manufacturers and a general section for retailers, explains what products are covered by the program, and has a California-specific page with tabs for different audiences (Everyone, Contractors, Retailers, Waste Facilities, and Official Docs).

The most frequently visited part of the website is the site locator tool which can be used to find a PaintCare drop-off site in California and states with PaintCare programs. In non-PaintCare states, the locator provides paint recycling or disposal programs, which are mostly HHW programs.

Website traffic from California was highest in August 2016 at the end of four months of summer advertising. Traffic was the lowest in January which is partly due to seasonality and less advertising in the winter months. The rest of the year, traffic was relatively even.

F. AWARENESS SURVEY

PaintCare conducted an online baseline “Paint Usage and Disposal Survey” in June 2013, using SurveyMonkey. The survey has been repeated in June each year. A summary of results from the 2014-2017 surveys are included in the appendix. This survey is used to evaluate changes over time in the level of awareness by the public about paint recycling options. PaintCare is especially interested in the questions related to how much paint people store in their homes and whether they know where to recycle unwanted paint. Highlights are below.

- ◆ There is a trend showing that respondents store less paint each year. In recent years, fewer respondents said that they had 5 or more gallons of paint, and more respondents said they had 0-5 gallons.
- ◆ Fewer respondents reported that the paint in their home came from either (1) someone they hired to paint left it behind, or (2) it was there when they moved in. With many easy-to-find year-round drop-off sites open several days a week, it may be that painting contractors are more likely to take away leftover paint when the job is done, and home sellers are more likely to clean out their old paint storage areas throughout the year or when they get ready to sell.
- ◆ The percentage of respondents who said they had (or would) dry out unwanted paint and dispose of it in the trash decreased each year. Prior to PaintCare, drying and disposing of latex paint was recommended by many state and local government programs (except in California) as the way to get rid of unwanted latex paint.

- ◆ The percentage of respondents who said they had (or would) take unwanted paint to an HHW program decreased each year – and the percentage who said they had (or would) take it to a paint store increased each year. Prior to PaintCare, very few paint stores took back paint, so this is an indicator of awareness of the options provided by PaintCare’s retail partners.
- ◆ The percentage of respondents who said they know that paint can be recycled increased in most years, but decreased by 10 points this year. This year it was 48%.
- ◆ The percentage of respondents who said they know where to take paint for recycling or disposal has increased in most years. This year 63% of respondents said they know where to take old paint.

Section 7. Audits

Regulatory Citation

Title 14. Division 7. Chapter 11. Article 2. Architectural Paint Recovery Program

Section 18954. Annual Report Compliance Criteria.

(a) The annual report must contain the following:

(7) Audits. The annual report shall include an independent financial audit of the California Architectural Paint Recovery Program funded from the paint stewardship assessment. The audit shall be conducted in accordance with auditing standards generally accepted in the United States of America, and standards set forth in Government Auditing Standards issued by the Comptroller General of the United States. The financial audit submitted to the department shall be prepared by an Independent Certified Public Accountant (CPA). The CPA shall not perform non-audit services for the manufacturer or stewardship organization that would impair independence as defined in the Government Auditing Standards issued by the Comptroller General of the United States (e.g., accounting services, development of internal controls, management decisions). The independent financial audit shall include:

(A) California Architectural Paint Recovery Program financial statements, as required by GAAP.

(B) An opinion on the manufacturer or stewardship organization's compliance with the financial aspects of PRC §48700 and Title 14, Division 7, Chapter 11, Article 2 of the California Code of Regulations.

(C) Findings and recommendations as they relate to the financial aspects of the Architectural Paint Recovery Program.

(D) Management Letter, if issued, by the manufacturer or stewardship organization's CPA.

Audit

An independent financial audit was conducted of the California PaintCare program by Rogers & Company PLLC. This independent CPA firm conducted the audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that the firm plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. The audit process includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. The audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. In Rogers & Company's opinion, the financial statements of the California PaintCare program present fairly, in all material respects, the financial position as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The independent financial audit report of the California PaintCare program is in the appendix and addresses all requirements of Title 14, Section 18954(a)(7) of the California Code of Regulations as listed above.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
PaintCare Inc.

We have audited the accompanying financial statements of PaintCare Inc. ("PaintCare") California Architectural Paint Recovery Program ("the Program"), which comprise the statement of financial position as of June 30, 2017, the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Auditor's Responsibility (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Program as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also used our report dated [Report Date], on our consideration of PaintCare's internal control over the Program's financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering PaintCare's internal control over the Program's financial reporting and compliance.

A handwritten signature in black ink that reads "ROGERS + COMPANY PLLC". The signature is written in a cursive, slightly stylized font.

Cash, end of year	<u><u>\$ -</u></u>

See accompanying notes.

PaintCare Inc.
California Architectural Paint Recovery Program

Notes to Financial Statements
June 30, 2017

1. Nature of Operations

The California Architectural Paint Recovery Program (“the Program”) is authorized by Public Resources Code Section 48700 to implement measures to require paint manufacturers to develop and implement a program to collect, transport, and process postconsumer paint to reduce the costs and environmental impacts of the disposal of postconsumer paint in California. The Program is administered by PaintCare Inc. (“PaintCare”).

PaintCare, a not-for-profit 501(c)(3) organization, was created in October 2009 by the American Coatings Association (ACA), who, working with state and local government stakeholders, passed the first ever paint product stewardship law in the United States in the state of Oregon in 2009 with implementation of the Oregon Program beginning July 1, 2010. The legislation pilots an industry-led, end-of-life management program for post-consumer paint, which PaintCare operates. The PaintCare Board is made up of architectural paint manufacturers and participation in PaintCare is not limited to ACA members, but open to all architectural paint manufacturers. There are no dues or registration fees associated with PaintCare.

2. Summary of Significant Accounting Policies

Basis of Accounting and Presentation

The Program’s financial statements are prepared on the accrual basis of accounting. Unrestricted net assets represent funds that are not subject to donor-imposed stipulations and are available for support of the Program’s operations. There were no temporarily or permanently restricted net assets as of June 30, 2017.

Accounts Receivable

Accounts receivable are recorded at net realizable value and represent amounts due for post-consumer paint recovery fees. The Program provides an allowance for bad debts using the allowance method, which is based on management’s judgment considering historical information. Accounts are individually analyzed for collectability, and will be reserved based on individual evaluation and specific circumstances. When all collection efforts have been exhausted, the accounts are written-off against the related allowance. At June 30, 2017, an allowance of \$18,582 was recognized.

PaintCare Inc.
California Architectural Paint Recovery Program

Notes to Financial Statements
June 30, 2017

2. Summary of Significant Accounting Policies (continued)

Investment Allocation

PaintCare invests a portion of its accumulated surplus in a portfolio with Bank of America/Merrill Lynch. The sole objective of the portfolio is to earn a return equal to the rate of inflation and thus preserve the purchasing power of its capital. Interest, dividends, changes in market value, and other investment activities are allocated to each state program based on the relative net asset balances of each state program. Oversight of the investments is provided by the PaintCare Budget and Finance Committee and by the PaintCare Board of Directors.

Communications Costs

On behalf of the Program, PaintCare holds communication-related contracts for advertising, marketing, and consumer awareness. Communications costs are charged to operations when incurred. Communications expenses were \$3,753,494 for the year ended June 30, 2017, and are included in the accompanying statement of activities.

Revenue Recognition

The Program recognizes revenue from post-consumer paint recovery fees at the time the architectural paint product is sold by a manufacturer participant of the paint product stewardship program. Manufacturer participants in the Program pay the PaintCare recovery fee to PaintCare based on the amount of program products they sell on a monthly basis.

Program participants report their monthly unit sales of paint through a secure, HTTPS online system using their unique user ID and password. The participant must pay a paint recovery fee per unit sold, based on container size, according to the established fee schedule. As the PaintCare recovery fee is added to the wholesale price of paint and passed through uniformly to the retail purchase price of paint—so that the manufacturer, distributor, and/or retailer is made whole—in some cases, distributors or retailers have elected to undertake the obligation of the manufacturer for these fees. Thus, PaintCare has allowed remitter agreements in the Program, whereby a distributor or retailer reports and remits directly to PaintCare on behalf of a participant manufacturer's brand or brands. Reports and payment are due by the end of the month following the reporting period.

PaintCare Inc.
California Architectural Paint Recovery Program

Notes to Financial Statements
June 30, 2017

2. Summary of Significant Accounting Policies (continued)

Functional Allocation of Expenses

The costs of providing the various program and supporting activities have been summarized on a functional basis in the accompanying financial statements. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

In preparing these financial statements, the Program has evaluated events and transactions for potential recognition or disclosure through September 26, 2017, the date the financial statements were available to be issued.

3. Related Party

ACA, a related party, is a separate, 501(c)(6) nonprofit organization working to advance the needs of the paint and coatings industry and the professionals who work in it. Through advocacy of the industry and its positions on legislative, regulatory, and judicial issues at the federal, state, and local levels, it acts as an effective ally, ensuring that the industry is represented and fairly considered. ACA also devotes itself to advancing industry efforts with regard to product stewardship, through its signature Coating Care[®] resources, and focuses on advancements in science and technology through its technical conferences and journals, as well as online training opportunities. ACA incorporated PaintCare for the sole purpose of implementing programs for post-consumer architectural paint including the recovery program pursuant to Public Resources Code Section 48700. ACA maintains a controlling interest in PaintCare through the ability to appoint its Board of Directors.

PaintCare Inc.
California Architectural Paint Recovery Program

Notes to Financial Statements
June 30, 2017

3. Related Party (continued)

In February 2011, ACA and PaintCare entered into an affiliation agreement whereby ACA charges PaintCare an administrative fee, annually, to cover the following expense categories: allocation of time incurred by PaintCare officers, allocation of other direct labor, and allocation of occupancy and infrastructure costs. The term of the agreement is for one year and automatically renews for one-year terms unless canceled by either party.

For the year ended June 30, 2017, total administrative fees charged by ACA to PaintCare were \$1,956,462, and of this amount, \$1,243,723 related to the Program. At June 30, 2017, PaintCare owed the Program \$43,853,629 related to paint recovery fees that are being held on behalf of the Program and are included in the accompanying statement of financial position.

4. Income Taxes

The Program itself is not subject to income taxes. The steward of the Program, PaintCare, is recognized as a tax-exempt organization under Internal Revenue Code Section 501(c)(3), and is exempt from income taxes except for taxes on unrelated business activities.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors of
PaintCare Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of PaintCare Inc. ("PaintCare") California Architectural Paint Recovery Program ("the Program"), which comprise the statement of financial position as of June 30, 2017, the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated [Report Date].

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered PaintCare's internal control over financial reporting ("internal control") over the Program to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of PaintCare's internal control over the Program. Accordingly, we do not express an opinion on the effectiveness of PaintCare's internal control over the Program.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Internal Control over Financial Reporting (continued)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Program's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**EXAMINATION REPORT OVER COMPLIANCE WITH THE
FINANCIAL ASPECTS OF THE PUBLIC RESOURCES CODE
SECTION 48700, AND TITLE 14, DIVISION 7, CHAPTER 11,
ARTICLE 2 OF THE CALIFORNIA CODE OF REGULATIONS**

To the Board of Directors of
PaintCare Inc.

We have examined PaintCare Inc.'s ("PaintCare") California Architectural Paint Recovery Program's ("the Program") compliance with the financial aspects of the Public Resources Code Section 48700, and Title 14, Division 7, Chapter 11, Article 2 of the California Code of Regulations during the year ended June 30, 2017. Management is responsible for PaintCare's compliance with those requirements. Our responsibility is to express an opinion on PaintCare's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about PaintCare's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on PaintCare's compliance with specified requirements.

In our opinion, PaintCare complied, in all material respects, with the financial aspects of the Public Resources Code Section 48700, and Title 14, Division 7, Chapter 11, Article 2 of the California Code of Regulations during the year ended June 30, 2017.

This report is intended solely for the information and use of the Board of Directors, management, and the California Department of Resources Recycling and Recovery, and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Findings
For the Year Ended June 30, 2017

Section I – Summary of Independent Auditors’ Results

Financial Statements

Type of auditor’s report issued:	Unmodified		
Internal control over financial reporting:			
• Material weakness(es) identified?	_____ Yes	<u> X </u> No	
• Significant deficiency(ies) identified that are not considered to be material weaknesses?	_____ Yes	<u> X </u> None reported	
Noncompliance material to financial statements noted?	_____ Yes	<u> X </u> No	

Section II – Financial Statement Findings

There were no financial statement findings reported during the 2017 audit.

**Appendix
Section C**

California Paint Stewardship Program

Each year about 780 million gallons of architectural paint is sold in the United States. Did you know that about 10 percent goes unused and is available for recycling?

California's Paint Stewardship Law requires the paint manufacturing industry to develop a financially sustainable and environmentally responsible program to manage postconsumer architectural paint.

The program includes education about buying the right amount of paint, tips for using up remaining paint and setting up convenient recycling locations throughout the state.

Paint manufacturers established PaintCare, a nonprofit organization, to run paint stewardship programs in states with applicable laws.

PaintCare Products

These products have fees when you buy them and are accepted for free at drop-off sites:

- Interior and exterior architectural paints: latex, acrylic, water-based, alkyd, oil-based, enamel (including textured coatings)
- Deck coatings, floor paints (including elastomeric)
- Primers, sealers, undercoaters
- Stains
- Shellacs, lacquers, varnishes, urethanes (single component)
- Waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based)
- Metal coatings, rust preventatives
- Field and lawn paints

Leaking, unlabeled and empty containers are not accepted at drop-off sites.

⊘ Non-PaintCare Products

- Paint thinners, mineral spirits, solvents
- Aerosol paints (spray cans)
- Auto and marine paints
- Art and craft paints
- Caulk, epoxies, glues, adhesives
- Paint additives, colorants, tints, resins
- Wood preservatives (containing pesticides)
- Roof patch and repair
- Asphalt, tar and bitumen-based products
- 2-component coatings
- Deck cleaners
- Traffic and road marking paints
- Industrial Maintenance (IM) coatings
- Original Equipment Manufacturer (OEM) (shop application) paints and finishes

For information about recycling and proper disposal of non-PaintCare products, please contact your garbage hauler, local environmental health agency, household hazardous waste program or public works department.

Recycle

with PaintCare

CALIFORNIA

Places to Take Old Paint

Paint recycling is more convenient with PaintCare. We set up paint drop-off sites throughout California. To find your nearest drop-off site, use PaintCare's search tool at www.paintcare.org or call our hotline at (855) 724-6809.

How to Recycle

PaintCare sites accept all brands of old house paint, stain and varnish — even if they are 20 years old! Containers must be five gallons or smaller, and a few types of paint are not accepted. See back panel for a list of what you can recycle.

All PaintCare drop-off sites accept up to five gallons of paint per visit. Some sites accept more. Please call the site in advance to make sure they can accept the amount of paint you would like to recycle.

Make sure all containers of paint have lids and original labels, and load them securely in your vehicle. Take them to a drop-off site during their regular business hours. We'll take it from there.

What Happens to the Paint?

PaintCare will make sure that your leftover paint is remixed into recycled paint, used as a fuel, made into other products or properly disposed.

Who Can Use the Program?

People bringing paint from their homes can bring as much latex or oil-based paint as the site is willing to accept.

Businesses (painting contractors and others) can use this program with one restriction: If your business produces more than 220 pounds (about 20-30 gallons) of hazardous waste per month, you may use the drop-off sites for your latex paint only but not for your oil-based paint. Contact PaintCare to learn more about this restriction.

Large Volume Pick-Up

If you have at least 200 gallons of paint to recycle at your business or home, ask about our free pick-up service. Please call for more details or to request an appointment.

PaintCare Fee

PaintCare is funded by a fee paid by paint manufacturers for each can of paint they sell in the state. Manufacturers pass the fee to retailers, who then apply it to the price of paint. Stores can choose whether or not to show the fee on their receipts. Fees are based on the size of the container as follows:

- \$ 0.00 Half pint or smaller
- \$ 0.35 Larger than half pint and smaller than 1 gallon
- \$ 0.75 1 Gallon
- \$ 1.60 Larger than 1 gallon up to 5 gallons

Not a Deposit

The fee is not a deposit — it is part of the purchase price. The fees are used to pay the costs of running the program: recycling, public education, staffing and other expenses.

Contact Us

To learn more or find a drop-off site, please visit www.paintcare.org or call (855) 724-6809.

Recycle with PaintCare

Find a drop-off site near you:
(855) 724-6809 • www.paintcare.org

**Buy right.
Use it up.
Recycle the rest.**

Manufacturers of paint created PaintCare, a nonprofit organization, to set up convenient places for you to recycle leftover paint. We're working to provide environmentally sound and cost-effective recycling programs in your state and others with paint stewardship laws.

LEARN MORE

Visit www.paintcare.org or follow us on Facebook for tips on how to buy the right amount of paint, store paint properly, use up leftover paint, and find a drop-off site. We also have a free pick-up service for businesses or households with at least 300 gallons of paint to recycle.

Paint Recycling Program

About the PaintCare Program

PAINTCARE

Paint manufacturers created PaintCare, a non-profit organization, to set up convenient places for households and businesses to recycle leftover paint. PaintCare sets up paint drop-off sites throughout states that adopt paint stewardship laws.

PAINTCARE PRODUCTS

These products have fees when purchased and will be accepted for free at PaintCare drop-off sites:

- Latex paints (acrylic, water-based)
- Oil-based paints (alkyd)
- Stains
- Primers and undercoaters
- Shellacs, lacquers, varnishes, urethanes
- Deck and floor paints
- Sealers and waterproofing coatings for wood, concrete and masonry

NON-PAINTCARE PRODUCTS

- Paint thinners and solvents
- Aerosol paints (spray cans)
- Auto and marine paints
- Paint additives, colorants, tints, resins
- Wood preservatives (containing pesticides)
- Asphalt, tar and bitumen-based products
- 2-component coatings
- Coatings used for Original Equipment Manufacturing or shop application
- Any non-coatings (caulk, spackle, cleaners, etc.)

FEES

PaintCare fees are applied to the purchase price of architectural paint sold in the state as required by state law. Fees are applied to each container and vary by the size of the container as follows:

Half pint or smaller	\$ 0.00
More than half pint to smaller than 1 gallon	\$ 0.35
1 gallon	\$ 0.75
More than 1 gallon up to 5 gallons	\$ 1.60

For more information or to find a place to take your unwanted paint for recycling, please ask for the PaintCare brochure, visit www.paintcare.org or call (855) 724-6809.

Recycle with PaintCare

WE CAN HELP
Recycle
 YOUR PAINT
www.paintcare.org

Paint Recycling Made Easy

Paint manufacturers formed PaintCare, a nonprofit organization, to make paint recycling more convenient, cost effective, and environmentally sound. Paint doesn't belong in the trash or down the drain. If you can't use it up, recycle it with PaintCare.

We're setting up locations in your state where you can bring old paint for free all year-round.

What types of paint products can be recycled with PaintCare?

✓ **PAINTCARE PRODUCTS**

(YOU CAN RECYCLE THESE)

These products have fees when you buy them and are accepted for free when you drop them off for recycling:

- Water-based paints (latex, acrylic)
- Oil-based paints (alkyd)
- Stains
- Primers
- Varnishes
- Shellacs
- Lacquers
- Urethanes
- Deck paints
- Floor paints
- Sealers
- Waterproofing coatings

✗ **NON-PAINTCARE PRODUCTS**

Leaking, unlabeled, and empty containers are not accepted.

- Paint thinners and solvents
- Aerosol paints (spray cans)
- Auto and marine paints
- Paint additives, colorants, tints, resins
- Wood preservatives (containing pesticides)
- Asphalt, tar, and bitumen-based products
- 2-component coatings
- Coatings used for Original Equipment Manufacturing or shop application
- Any non-coatings (caulk, spackle, cleaner, etc.)

PROGRAM FUNDING

The PaintCare Fee is applied to the purchase price of architectural paint sold in your state as required by law. Fees are based on container size:

Half pint or smaller	\$0.00
Larger than half pint and smaller than 1 gallon	\$0.35
1 gallon	\$0.75
More than 1 gallon up to 5 gallons	\$1.60

LEARN MORE: Please ask for a PaintCare program brochure, visit www.paintcare.org, or call (855) 724-6809.

California's Paint Stewardship Program began October 2012.

The California Paint Stewardship law requires paint manufacturers to set up and operate a paint stewardship program in California. The program is funded by a fee on each container of architectural paint sold in the state. The program sets up drop-off sites at retail stores and other sites throughout the state where households and businesses are able to take most types of leftover paint for recycling, free of charge.

Paint Stewardship

The American Coatings Association (ACA) worked with various stakeholders interested in the management of postconsumer paint to develop a Paint Stewardship Program in the United States. PaintCare Inc. is a nonprofit organization established by ACA to implement the program on behalf of paint manufacturers in states that adopt paint stewardship laws. PaintCare operates programs in California, Colorado, Connecticut, the District of Columbia, Maine, Minnesota, Oregon, Rhode Island, and Vermont.

The main goals of the program are to decrease paint waste and recycle more postconsumer paint by setting up convenient drop-off sites in each PaintCare state.

Fees and Funding

As required by state law, a paint stewardship assessment (PaintCare Fee) must be added by manufacturers to the wholesale price of all architectural paint sold in the state. This fee is paid by manufacturers to PaintCare to fund setting up drop-off sites for leftover, postconsumer paint, and for the transportation, recycling, and proper disposal of that paint. The fees also pay for consumer education and program administrative costs.

The fees are based on container size as follows:

\$ 0.00 — Half pint or smaller

\$ 0.35 — Larger than half pint and smaller than 1 gallon

\$ 0.75 — 1 Gallon

\$ 1.60 — Larger than 1 gallon to 5 gallons

The law also requires that each distributor and retailer include the PaintCare Fee with their sale price of architectural paint sold in the state. Displaying the fee on invoices and receipts is not mandatory for distributors or retailers; however, PaintCare encourages them to show the fee and list it as PaintCare Fee to aid in customer and dealer education and to ensure transparency.

Notice for Painting Contractors

It is expected that contractors will pass the fees on to their customers in order to recoup the fees they pay on the product.

When estimating jobs, contractors should take these fees into account by checking with your suppliers to make sure the quotes for paint products include the fees. You should also let your customers know that you will be including these fees in your quotes.

New Paint Drop-Off Sites

PaintCare has established more than 750 paint drop-off sites across California. Most drop-off sites are at paint stores. Other sites include certain solid waste transfer stations, recycling centers, and government-sponsored household hazardous waste programs. Participation as a drop-off site is voluntary.

Use of Retail Drop-Off Sites by Businesses

Retail drop-off sites provide a convenient and no cost recycling option for painting contractors and other businesses. Businesses that generate less than 220 pounds of hazardous waste* per month will be able to use these sites to recycle all program products (both water and oil-based) with some restrictions on quantities per month.

Larger businesses (those that generate more than 220 pounds of hazardous waste per month) may use the drop-off sites for their water-based program products only; they are not able to use the sites for oil-based paint or other solvent-based products.

**220 pounds is about 20-30 gallons of paint. When counting how much hazardous waste you generate in a month, oil-based paint counts (because by law it is a hazardous waste), but latex and other water-based paint does not count toward the 220 pound monthly total.*

Pick-Up Service for Large Volumes

Businesses with at least 200 gallons of postconsumer paint to recycle may qualify to have their paint picked up by PaintCare at no additional cost. To learn more about this service or to request an appointment, please visit www.paintcare.org/pickup or call (855) 724-6809.

WHAT PRODUCTS ARE COVERED?

The products accepted at PaintCare drop-off sites are the same products that have a fee when they are sold.

PaintCare Products include interior and exterior architectural coatings sold in containers of 5 gallons or less. However, they do not include aerosol products (spray cans), industrial maintenance (IM), original equipment manufacturer (OEM), or specialty coatings.

PaintCare Products

- ◆ Interior and exterior architectural paints: latex, acrylic, water-based, alkyd, oil-based, enamel (including textured coatings)
- ◆ Deck coatings, floor paints (including elastomeric)
- ◆ Primers, sealers, undercoaters
- ◆ Stains
- ◆ Shellacs, lacquers, varnishes, urethanes (single component)
- ◆ Waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based)
- ◆ Metal coatings, rust preventatives
- ◆ Field and lawn paints

Non-PaintCare Products

- ◆ Paint thinners, mineral spirits, solvents
- ◆ Aerosol paints (spray cans)
- ◆ Auto and marine paints
- ◆ Art and craft paints
- ◆ Caulking compounds, epoxies, glues, adhesives
- ◆ Paint additives, colorants, tints, resins
- ◆ Wood preservatives (containing pesticides)
- ◆ Roof patch and repair
- ◆ Asphalt, tar, and bitumen-based products
- ◆ 2-component coatings
- ◆ Deck cleaners
- ◆ Traffic and road marking paints
- ◆ Industrial Maintenance (IM) coatings
- ◆ Original Equipment Manufacturer (OEM) (shop application) paints and finishes

Large Volume Pick-Up (LVP) Service

PaintCare offers a free pick-up service to painting contractors, property managers, and others with large amounts of leftover architectural paint.

Who is PaintCare?

PaintCare Inc. is a non-profit organization established by the American Coatings Association to operate paint stewardship programs on behalf of paint manufacturers in states that pass paint stewardship laws.

Paint Drop-Off Sites

In states with a paint stewardship program, PaintCare's primary effort is to set up conveniently located drop-off sites—places where residents and businesses may take their unwanted paint for no charge. Sites set their own limits on the volume of paint they accept from customers per visit (usually from 5 to 20 gallons). To find a drop-off site near you, please use PaintCare's site locator at www.paintcare.org or call (855) 724-6809.

Large Volume Pick-Ups

For those who have accumulated a large volume or stockpile of paint, PaintCare also offers a pick-up service. Large volume means at least 200 gallons, measured by container size (not content). On a case-by-case basis, PaintCare may approve a pick-up for less than 200 gallons if there are no drop-off sites in your area. After two or three pick-ups, you may be switched to a regular service (see next page).

Drums and Bulked Paint Are Not Accepted

PaintCare only accepts paint in containers that are 5 gallons or smaller in size. Leave paint in original cans with original labels; do not combine or bulk paint from small cans into larger ones. If you have unwanted paint in drums or containers larger than 5 gallons, please contact a licensed paint recycling company or a hazardous waste transportation company to assist you.

HOW TO REQUEST A LARGE VOLUME PICK-UP

1. Sort and count your paint

We need to know the number of each container size and the type of products you have, sorted into two categories: (1) water-based paints and stains and (2) oil-based paint and stains and any other program products (sealers and clear top-coat products, such as varnish and shellac).

2. Fill out the LVP Request Form and send it in

Fill out a paper or electronic version of the "Large Volume Pick-Up Request Form" and return it to PaintCare by email, fax, or regular mail. (Visit www.paintcare.org or call PaintCare for the form.)

Scheduling

After reviewing your form, PaintCare staff will either approve your site for a pick-up or inform you of the best place to take your paint if you do not meet the volume requirement. If approved, you will be put in contact with our licensed hauler to schedule a pick-up. It may be several weeks before your pick-up occurs.

On the Day of Your Pick-Up

Sort your products into the two categories noted above and store them in an area that has easy access. If the paint is a far distance from where the hauler parks, the path between should be at least four feet wide to accommodate movement of the boxes.

Please plan to have staff available to pack the paint cans into the boxes. The hauler may be able to provide some assistance, but we require your staff to be present and provide labor to pack boxes. Once your paint is properly packed and loaded onto the hauler's truck, you will sign a shipping document and receive a copy for your records. Your paint will then be taken to an authorized processing facility for recycling.

Note: Paint must be in original containers and not leaking.

Repeat Service for Large Volume Users

For businesses that generate large volumes of unwanted paint on a regular basis, a service for recurring direct pick-ups is available. With this service, you will be provided with empty bins, then request a pick-up when at least three bins are filled. PaintCare will provide onsite training on how to properly pack the paint, and you will be required to sign a contract with PaintCare.

Limits on Businesses

To use the program for oil-based products, your waste must qualify as exempt under federal (40 CFR § 262.14) and state/local hazardous waste generator rules. Most notably, these rules require that your business (a) generates no more than 220 pounds (about 20-30 gallons, depending on type) of hazardous waste per month, and (b) accumulates no more than 2,200 pounds (approximately 220 gallons) of hazardous waste at any given time. If your business fails to qualify as an exempt generator, it will not be able to use the program for oil-based products. For more information on the federal hazardous generator rules, please go to www.paintcare.org/limits.

Note: When calculating how much hazardous waste you generate in a month, do not count latex paint.

If You Have Products We Don't Accept

The program does not accept all paints (such as aerosols and automotive finishes) or other hazardous waste. If you have solvents, thinners, pesticides, or any non-PaintCare products (see list to right for examples), we recommend that residents contact their local household hazardous waste (HHW) program. Some HHW programs allow businesses to use their program for a modest fee. Otherwise, businesses should contact a licensed hazardous waste transportation company.

What Products Are Covered?

The products accepted at PaintCare drop-off sites are the same products that have a fee when they are sold. PaintCare Products include interior and exterior architectural coatings sold in containers of 5 gallons or less. However, they do not include aerosol products (spray cans), industrial maintenance (IM), original equipment manufacturer (OEM), or specialty coatings.

PAINTCARE PRODUCTS

- Interior and exterior architectural paints: latex, acrylic, water-based, alkyd, oil-based, enamel (including textured coatings)
- Deck coatings, floor paints
- Primers, sealers, undercoaters
- Stains
- Shellacs, lacquers, varnishes, urethanes
- Waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based)
- Metal coatings, rust preventatives
- Field and lawn paints

NON-PAINTCARE PRODUCTS

- Paint thinners, mineral spirits, solvents
- Aerosol paints (spray cans)
- Auto and marine paints
- Art and craft paints
- Caulking compounds, epoxies, glues, adhesives
- Paint additives, colorants, tints, resins
- Wood preservatives (containing pesticides)
- Roof patch and repair
- Asphalt, tar, and bitumen-based products
- 2-component coatings
- Deck cleaners
- Traffic and road marking paints
- Industrial Maintenance (IM) coatings
- Original Equipment Manufacturer (OEM) (shop application) paints and finishes

California Paint Usage & Disposal Surveys

Notes:

Online surveys conducted using SurveyMonkey. Blue numbers indicate the number of people who responded.

0 indicates the question was asked, but there were no responses with that answer.

Surveys were conducted in June each year.

2014		2015		2016		2017	
%	Count	%	Count	%	Count	%	Count

1. How much leftover paint is in your home?

	445		345		405		412	
None	36.2	161	46.4	160	44.7	181	36.41	150
Less than 1 gallon	13.5	60	10.7	37	20.2	82	28.64	118
1-5 gallons (would fit in a cardboard box)	29.0	129	27.0	93	18.3	74	23.54	97
5-15 gallons (would fit in a shopping cart)	14.2	63	9.9	34	8.4	34	5.10	21
15-30 gallons (would fit in two shopping carts)	2.2	10	1.4	5	2.2	9	0.73	3
More than 30 gallons	0.0	0	0.3	1	1.2	5	0.49	2
Yes, but I don't know how much	4.9	22	4.3	15	4.9	20	5.10	21

2. Where did the paint come from?

	275		345		224		261	
I did some painting myself and had some leftover	70.5	194	39.4	136	69.2	155	67.82	177
I hired someone to paint and they left it behind	37.1	102	22.3	77	18.3	41	14.56	38
I found it in my home/business when I moved in	20.4	56	11.0	38	12.5	28	4.60	12
I am a painting contractor and it is from one of my jobs	1.1	3	2.3	8	8.5	19	1.92	5
I don't remember where the paint came from	2.9	8	20.6	71	5.4	12	4.98	13
Other:	2.9	8	22.3	77	5.4	12	6.13	16

Other Responses for June 2017 Survey:

All of the above (1)

From a friend who was moving (1)

From my craft projects (1)

I bought an extra gallon, just in case (1)

I brought it home from work (1)

Previous owners (2)

Various (1)

8 answered with the name of the store

3. What did you do with leftover paint?

	424		345		405		408	
Poured it down the drain	0.5	2	0.6	2	2.7	11	1.23	5
Put can(s) of liquid paint in the trash	6.8	29	3.8	13	4.7	19	3.92	16
Dried out the paint and put it in the trash	22.2	94	11.0	38	12.1	49	14.71	60
Stored it in the basement or garage intend to use	45.8	194	21.4	74	23.2	94	29.66	121
Took it to a paint store	4.7	20	7.0	24	6.4	26	7.11	29
Took it to a household hazardous waste event or facility	35.8	152	24.1	83	15.8	64	15.69	64
Gave it away to a family, friend or community organization	10.1	43	5.5	19	5.7	23	4.90	20
Left it behind when I moved	8.7	37	1.4	5	2.5	10	3.43	14
I don't know	5.7	24	4.9	17	4.9	20	4.90	20
I have never stored or disposed of leftover/unwanted paint	11.3	48	19.7	68	19.5	79	13.24	54
Other	1.7	7	0.6	2	2.5	10	1.23	5

Other Responses for June 2017 Survey:

Trash/garbage (1)

Use in art projects (1)

None of the above (3)

4. If you had unwanted paint, what would you do with it?

	422		345		405		407	
Pour it down the drain	0.5	2	0.6	2	2.0	8	1.47	6
Put can(s) of liquid paint in the trash	3.6	15	2.0	7	5.2	21	3.44	14
Dry out the paint and put it in the trash	10.7	45	12.5	43	10.9	44	11.30	46
Take it to a paint store	8.1	34	17.4	60	18.8	76	19.41	79
Take it to a household hazardous waste event or facility	54.7	231	35.4	122	28.6	116	30.47	124
Give it away to a family, friend or organization	10.0	42	13.6	47	14.8	60	16.46	67

PaintCare® Drop-Off Sites

Legislation

In 2010, Governor Schwarzenegger signed Assembly Bill 1343 creating the California Architectural Paint Recovery Program. The new law requires paint manufacturers to develop and implement a program to collect, transport, and process post-consumer paint and other architectural coatings to reduce the costs and environmental impacts of their disposal in California. The program's primary goals are to: (1) reduce the generation of post-consumer architectural coatings; (2) promote reuse/using up post-consumer architectural coatings; and (3) ensure proper recycling and disposal at their end-of-life.

About PaintCare

The law allows for the formation of a non-profit stewardship organization to implement the program. To serve this purpose, PaintCare Inc. was formed by the American Coatings Association (ACA), the non-profit trade association for the paint and coatings industry. PaintCare submitted a management plan to the California Department of Resources Recycling and Recovery (CalRecycle) on behalf of paint manufacturers in April 2012. The Department approved the Plan on July 19, 2012. The California program began 90 days after Plan approval – on October 19, 2012.

Various studies have demonstrated that between 3% and 10% of all paint purchased is “leftover” – goes unused. To capture this paint, PaintCare will pay for storage containers, transportation and recycling/proper disposal for leftover paint delivered to contracted collection locations like yours. PaintCare will also conduct extensive public outreach about the Program, and promote your store as a Drop-Off Site.

Before the PaintCare Program (“Program”), California residents and businesses recycled or disposed of paint through government-sponsored household hazardous waste (HHW) programs or through a hazardous waste management company. The PaintCare Program increases recycling opportunities for California consumers by partnering with hundreds of retail and reuse stores throughout the state to serve as paint Drop-Off Sites.

PaintCare Provides

Once a contract is established between PaintCare and the Drop-Off Site, the Program will provide the following:

- Paint storage Collection Bins (usually 1 cubic yard containers)
 - Labels for paint Collection Bins
 - Spill kit (upon request)
 - Recordkeeping forms and/or log book
 - Poster identifying your site as a PaintCare Drop-Off Site
 - Educational print materials for your customers
-

**PaintCare Does
Not Provide**

The Program does not provide personal protective equipment (PPE) or gear that may be required by the U.S. Occupational Safety and Health Administration (OSHA) or California occupational and safety regulations for your place of work. It is your site's responsibility to provide appropriate PPE for your workplace.

PaintCare has no authority and disclaims any responsibility to manage, direct, or supervise your employees, representatives, or agents, including how they perform the work and achieve compliance with applicable Law. PaintCare does not have responsibility for making day-to-day and critical decisions regarding the Services that you provide.

**Who Can Be
a Drop-Off Site**

PaintCare Drop-Off Sites may be any of the following:

- Municipal household hazardous waste collection facilities (permanent and temporary)
 - Paint retailers including paint, hardware and home improvement stores, and reuse stores (i.e., stores that sell salvaged or excess building materials)
 - Waste transfer stations, landfills, public works yards, and other appropriate, publicly accessible facilities
-

General Guidelines for Drop-Off Sites

Below are general guidelines for a typical Drop-Off Site. However, we recognize that each location will have unique logistical and operational considerations. PaintCare Drop-Off Sites must make their own decisions and use their best judgment to operate in the safest manner possible in accordance with applicable Law. To be a Drop-Off Site, you must:

- Accept Program Products from participants during your regular advertised or posted operating hours
- Have appropriate signage that informs the public of the hours of operation
- Display the PaintCare poster to identify you as a Drop-Off Site – this poster should be posted in a highly visible area, preferably at the entrance
- Have adequate space, staffing and training to collect and store Program Products and consolidate them only in Drop-Off Sites provided by or approved for use by PaintCare or its contractors to hold and transport Program Products
- Provide a secure space for empty and full Collection Bins
- Pack only Program Products into Collection Bins (see Section 3 for a description of Program Products)
- Schedule shipments of Program Products from your Drop-Off Site
- Do not accept, handle, pack, or ship Non-Program Products, including unacceptable containers (see Section 3 for list of Non-Program Products and unacceptable containers) because the Drop-Off Site may assume liability for Non-Program Products if it engages in these activities under California Health & Safety Code § 25217
- Maintain records
- Train staff to be familiar with the requirements and practices of this guide
- Have adequate comprehensive and/or commercial general liability insurance to cover potential risks and liability associated with activities on premises
- Know and comply with applicable federal, state and local laws as they pertain to your Drop-Off Site and train staff accordingly – these may include zoning requirements for your activities, state permit requirements (air, hazardous waste, water quality, solid waste, storm water) and OSHA requirements
- For additional information on state law regarding collection of the Program Products, visit the Department of Toxic Substance Control's website at www.dtsc.ca.gov

**Storage Area
for Collection
Bins**

Establish a sufficient, dedicated storage area for Collection Bins and Program Products.

Collection Bins must include secondary containment to contain liquids in the event a can leaks while in storage; however, they should also be placed on an impermeable surface (e.g., concrete, asphalt, sealed wood floor) whenever possible.

Store Collection Bins away from ignition sources.

Place Collection Bins away from storm drains and floor drains.

Protect Collection Bins from temperature extremes by storing them inside or under cover if possible.

Mark the Collection Bin with the date the first Program Product is placed in it and ensure that no Collection Bin with content is stored for more than one hundred and eighty (180) days, as required by applicable Law.

If you store Collection Bins outdoors, you may need approval from your local fire or hazardous materials oversight agency.

Storage area information should be included in your Hazardous Materials Business Plan (HMBP) if required by your local fire or hazardous materials oversight agency.

Security

The Drop-Off Site should be secured and locked when it is closed or not attended.

Only Drop-Off Site staff should have access to the Collection Bins and storage area.

**Use and
Maintenance
of Collection
Bins**

Keep Collection Bins closed, except when adding Program Products.

Maintain enough space around Collection Bins to inspect for leakage and emergency access.

Do not overfill Collection Bins.

Pack 5 gallon buckets on the bottom layer of the Collection Bins for stability.

Pack all Program Products (cans, buckets, bottles) upright and as tight as possible in the Collection Bins to protect contents from shifting and leaking in transit. Use safe practices for handling, storage and management of Program Products.

Use good housekeeping standards; keep paint storage areas clean and orderly.

Accepting Program Products

What Is Architectural Paint

It is an important responsibility for PaintCare Drop-Off Sites to only accept Program Products. Section 3 includes the primary examples of architectural paint products accepted by the PaintCare Program (“Program Products”) and paint or paint-related products not accepted by the PaintCare Program (“Non-Program Products”). Drop-Off Sites that accept Non-Program Products will be responsible for managing all Non-Program Products at the Drop-Off Sites’ expense.

Generally, architectural paints include latex and oil-based house paint, stains and clear coatings. The Program excludes (a) industrial maintenance coatings, labeled “for industrial use,” or other appropriate wording; (b) Original Equipment Manufacturer coatings or coatings used for OEM applications; and (c) specifically excluded Specialty coatings.

Architectural paint is classified as either latex (water-based) or oil-based (alkyd) and the classification is important in order to decide how the product should be handled and recycled. Being able to tell the difference between latex and oil-based products is also important in determining which types of businesses can use the PaintCare Program (see next two sub-sections).

Who Can Drop Off Program Products

The Program accepts paint from the following:

Households. Residents may drop off any Program Product.

CESQG Businesses. These are businesses that generate less than 100 kilograms (about 27 gallons) of hazardous wastes per month. These businesses are called CESQGs for “Conditionally Exempt Small Quantity Generators.” They are often small painting contractors or commercial property owners, but they can be any type of business as long as they do not generate more than 27 gallons of hazardous waste per month. CESQG businesses may drop off any Program Product.

SQG and LQG Businesses. These are businesses that generate more than 100 kilograms (about 27 gallons) of hazardous waste per month. These businesses are either Small Quantity Generators or SQGs (generate 100-1000 kilograms of hazardous waste per month) or Large Quantity Generators or LQGs (generate more than 1000 kilograms of hazardous waste per month) and are typically larger painting contractors or big manufacturing businesses. These businesses are more heavily regulated and they must use a hazardous waste management company to manage their hazardous waste, including oil-based paint. They may, however, drop off latex-based Program Product at PaintCare Drop-Off Sites.

Latex Paint is Special. When post-consumer latex paint is intended for recycling, as it is when accepted at PaintCare Drop-Off Sites, it may be considered by a special California law to be handled and considered “non-hazardous waste.” Therefore SQG and LQG businesses may drop off latex paint at Drop-Off Sites, even though they may not drop off oil-based paint.

**How to Know
If a Business
Qualifies**

Each business is responsible for determining its own generator status under the applicable Law.

When a business has oil-based paint to drop off, they must sign the Paint Drop-Off Log, included in Appendix A, to verify that they are CESQGs and therefore qualified to use the Program for oil-based paint. The log includes an explanation of what types of businesses qualify to use the Program. (If a business has only latex paint they do not need to sign anything.)

Once signed, you may accept up to 27 gallons of oil-based paint from a CESQG.

Paint Drop-Off Logs may be reviewed by PaintCare or government agencies and compared with a list of registered hazardous waste generators to see that only CESQG businesses are using the Program for their oil-based paint.

**Can Drop-Off
Sites Charge
Fees?**

Program participants should never be charged a fee; as a PaintCare Drop-Off Site you may not charge residents and qualifying businesses that are dropping off Program Products.

What Is Acceptable

Before accepting products from participants, Drop-Off Site staff must (1) check the product label to verify that it contains a Program Product, and (2) check the condition of the container for acceptance in the Program.

Acceptable Containers and Unacceptable Containers

Acceptable

- The Program Product must be in its original container
- The container must be labeled as containing one of the designated Program Products listed below
- The container must be in good condition and not leaking
- The container must be 5 gallons in size or smaller

Not Acceptable

- The container is not original (e.g., paint was transferred into a jar)
- The container does not have an original label
- The container is leaking or has no lid
- The container is larger than 5 gallon
- The container is empty

Program Products and Non-Program Products

Acceptable Products (Program Products)

- Interior and exterior paints: latex, acrylic, water-based, alkyd, oil-based, enamel (including textured coatings)
- Deck coatings, floor paints (including elastomeric)
- Primers, sealers, undercoaters
- Stains
- Shellacs, lacquers, varnishes, urethanes (single component)
- Waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based)
- Metal coatings, rust preventatives
- Field and lawn paints

Unacceptable Products (Non-Program Products)

- Paint thinners, mineral spirits, solvents
- Aerosol paints (spray cans)
- Auto and marine paints
- Art and craft paints
- Caulking compounds, epoxies, glues, adhesives
- Paint additives, colorants, tints, resins
- Wood preservatives (containing pesticides)
- Roof patch and repair
- Tar and bitumen-based products
- 2-component coatings
- Deck cleaners
- Traffic and road marking paints
- Industrial Maintenance (IM) coatings
- Original Equipment Manufacturer (OEM) (shop application) paints and finishes

Operations

Greet the Consumer

Participants must be assisted and supervised when they come to drop off Program Products. Drop-Off Site staff should greet participants and verify eligibility of the participant and their leftover paint products as Program Products.

Examine the Product

Screen products to ensure that only the following are accepted:

- Container is 5 gallons in size or smaller
- Original container has original label that is readable
- Container had a lid and is not leaking
- Latex paint from anyone
- Oil-based paint from households and CESQG businesses
- IMPORTANT: Never open or allow the participant to open a program product container

Screen products to ensure that the following are not accepted:

- Non-Program Products
 - Oil-based paint from SQG or LQG businesses
-

Drop-Off Site Limits

While PaintCare Program intends to collect as much Program Product as is available, we recognize that your Drop-Off Site may have storage limitations. PaintCare Drop-Off Site may voluntarily limit the amount of Program Products they accept from a customer. We recommend setting a limit of 5-gallons per participant per visit, though you may accept more at your discretion.

If your Collection Bins are completely full, inform the participant that you are temporarily unable to accept Program Products and redirect them to the nearest alternative PaintCare Drop-Off Site (see: www.paintcare.org) or ask them to come back at a later date. Contact the PaintCare Hauler immediately to have your Collection Bins picked-up and replaced with empties.

If you have a participant with a significant amount of Program Products that your location cannot manage, contact PaintCare directly for additional assistance. We may direct the participant to another PaintCare Drop-Off Site that can manage the large load or offer a direct pickup.

Refusing an Unacceptable Product

Do not accept any containers that are larger than 5 gallons, empty, unlabeled or leaking, and do not accept Non-Program Products from any participant.

When refusing a Program Product, Drop-Off Site staff must:

- Explain why the Program Product cannot be accepted (not part of Program, unlabeled, etc.)
- Refer the individual to the local municipal HHW collection program, garbage hauler or health department for assistance; HHW facilities can typically accept Non-Program Products from households and CESQG businesses

Storing and Packing Collection Bins

Place Program Products into Collection Bins immediately upon acceptance to minimize the possibility of spills.

Place 5 gallon containers at the bottom of Collection Bins to provide stability for second layer of 1 gallon and smaller cans.

Place all Collection Bins upright to prevent leaks or spills.

Pack the Program Products as tightly as possible inside the Collection Bins. This helps to keep paint products from shifting during transit.

If being stored outside, keep lids on Collection Bins to keep out rain.

Make sure the Collection Bin lid sits flat on top the Collection Bin.

All Program Products must be stored in Collection Bins at all times.

Never overfill Collection Bins.

Contact your local fire and/or hazardous materials oversight agency to find out if you need a Hazardous Materials Business Plan (HMBP) specific to your Drop-Off Site to accept and store Program Products.

Closing a Drop-Off Site

Please notify PaintCare in writing at least 60-days before stopping collection services to give us adequate time to remove your information from Program promotional materials.

As soon as possible, remove the poster (“Recycle Your Paint Here”) from the Drop-Off Site and post a new sign at the entrance to the site to notify the public that you will no longer be accepting Program Products.

Before your last pick-up, verify that all Program Products and Collection Bins are returned to PaintCare.

Working with Haulers

PaintCare contracts with public and private transporters for the delivery of supplies, empty Collection Bins and pick-up of full Collection Bins.

Scheduling the Hauler to Pick Up Collection Bins

When half of your Collection Bins are full or you anticipate that your Collection Bins will be full within fourteen (14) days in rural areas and five (5) days in urban areas, call your Hauler to schedule a pickup. The name of your Hauler and the contact information is written on the cover of this guide.

When establishing an appointment for pick-up, please indicate:

- That your facility is a PaintCare Drop-Off Site
 - Name of Drop-Off Site and address
 - Your name
 - Your phone number
 - Number of full Collection Bins to be picked up and the number of empty Collection Bins needed for replacement
-

Preparing Collection Bins for Removal

On the scheduled pickup day, Collection Bins should be readily accessible to the Hauler for quick and efficient loading. The Hauler will bring shipping documents and Collection Bin labels. Please assist the Hauler with Collection Bin loading and off-loading and keep a copy of the shipping documents for your records.

Inspections and Records

Inspections

Drop-Off Site staff should:

- Inspect the Drop-Off Site and storage area to ensure Collection Bins are closed properly and the area is secured
- Inspect Collection Bins for damage and report any damaged Collection Bins to PaintCare for replacement or repair
- Inspect Collection Bin for damaged or missing labels and correct as necessary
- Inspect the spill kit monthly to make sure that it is complete and not damaged. Contact PaintCare’s hauler to request additional spill kit supplies. Materials will be provided at the next Collection Bin pickup.

Record Keeping

The following records are to be maintained for a minimum of 3 years:

- Inspection records
 - Paint Drop-Off Log (see: Appendix A)
 - Employee training records (see: Appendix B)
 - Bills of Lading and/or other documentation required by applicable Law for outgoing shipments of Program Products
-

Training and Safety

Training

All employees handling Program Products must receive training in product identification, acceptance, handling, packaging, inspection and emergency response procedures before collecting Program Products or engaging in any PaintCare Program activities.

Ensure that employees conduct Program Products collection activities in a safe manner that protects workers and the environment.

Ensure Program Products collection activities follow general safety practices including proper lifting techniques.

Ensure Drop-Off Site employees are equipped for and understand hazards associated with Program Products.

Maintain training plans and records for each employee.

A form for recording staff training is included in Appendix B.

Safety

Store personal protective equipment (PPE) and spill response equipment in an accessible location adjacent to the Collection Bins.

Ensure the Drop-Off Site is equipped with appropriate emergency response equipment including a fire extinguisher, spill kit and PPE. Monthly inspections of equipment are recommended.

Ensure spill kit contains at a minimum safety goggles, gloves, absorbent, duct tape and plastic bags.

Ensure emergency procedures and emergency contact numbers including police, fire department and emergency services are posted by phone near the Drop-Off Site area.

If applicable, develop and maintain emergency action plan as required by OSHA.

If required by federal, state or local law, familiarize police, fire departments and emergency response teams with the layout of your facility, properties of Program Product handled at your facility and evacuation routes.

A form for recording emergency contacts is included in Appendix C.

Chapter 8

Spill Response

Spills

The information in this section will assist with spills from damaged or leaking Program containers. It is important that all Drop-Off Site staff understand corrective actions to minimize exposure to people or the environment.

Collection Bins should be kept in a clean, accessible area. Avoid spills through good housekeeping, safe handling techniques, proper storage and best management practices.

Clean up any spill or release of Program Product immediately and place spill residue in a sealed container in a Collection Bin. Label it. Contact PaintCare to replenish spill kit materials as needed.

Reporting

Any spill or release of Program Product to the environment through a storm drain, waterway or soil contamination of more than 10 gallons must be immediately reported to the appropriate governmental authority, including the Certified Unified Program Agency, (“CUPA”). Contact PaintCare within 24-hours of making such a report.

Post emergency contact numbers including police, fire department, and emergency services.

Spill Kits

Upon request, PaintCare provides each Drop-Off Site with a spill kit containing:

- Latex gloves
- Safety glasses
- Absorbent
- Plastic bags

Any material used should be replaced immediately after it is used. Contact PaintCare for replacement items.

Spill Response Procedures

If a spill is small enough to be managed by Drop-Off Site staff, follow these steps:

- Isolate the area and restrict access to the spill
 - Ensure personal safety, put on protective gear (glasses and gloves) provided in the spill kit
 - Stop the movement of paint by placing the leaking container upright or in a position where the least amount will spill, and place leaking container in plastic bags provided in spill kit
 - Contain the spill by placing absorbent pads or granular absorbent around and
-

on the spill – if outdoors, place barriers around storm drains to prevent a release to the environment

- Collect the contaminated absorbent material and place it in plastic bag(s) along with the leaking container and contaminated PPE, seal the bag(s) and place in the Collection Bin
 - Remove any clothing that may be contaminated, wash thoroughly to remove spilled material from your hands or body
 - Replace any used spill control supplies
 - Document the date, location and amount and type of material spilled
 - Immediately report the spill to the appropriate governmental authority
-

Appendix A.

[included on next page]

Appendix C – Emergency Contact Information

This form is to be completed prior to the first day of collection.

Basic Local Emergency Contacts

Facility Emergency Coordinator (name/phone): _____

Alternate Emergency Coordinator (name/phone): _____

Fire Department Phone Number 911 _____

Police Phone Number 911 _____

Hospital Phone Number _____

For Spills of Program Product:

Report any spill or release of Program Product to the environment (air, water or soil) greater than 10 gallons or any release of any Program Product to the storm drain or waters of the State to the appropriate local and state enforcement agencies immediately, and to PaintCare within 24 hours.

Local agency (name/phone): _____

State agency (name/phone): California Emergency Management Agency (Cal EMA) 1-800-852-7550 _____

PaintCare: 1-855-PAINT09 _____

Other (name/phone): _____

PaintCare Drop-off Site Training

Recycle with PaintCare

About the PaintCare Program

Recycle with PaintCare

Slide 2

What to do with leftover paint?

- Of all hazardous waste received by municipal programs for residents and small businesses, 50% is paint
- Approximately 10% of purchased paint goes unused
- 10% of annual sales in the US means there are 70 million gallons leftover and available for recycling each year
- In 2003, stakeholders including local, state and federal government; paint manufacturers; paint recyclers and others began a conversation to find a cooperative solution for managing post-consumer paint
- The American Coatings Association (ACA) participated, and the dialogue led to drafting of the model, state-level, industry supported law

Slide 3

Paint Stewardship Laws

Currently, 8 states and the District of Columbia have passed the industry-supported paint stewardship law.

Oregon:	July 2010
California:	October 2012
Connecticut:	July 2013
Vermont:	May 2014
Rhode Island:	June 2014
Minnesota:	November 2014
Colorado:	July 2015
Maine:	October 2015
DC:	January 2016

Recycle with PaintCare

Slide 4

What the Law Entails

Manufacturers selling paint in or into California must operate a program to manage leftover paint by:

- Reducing the generation of postconsumer paint through “buying right” education
- Promoting using up / donating unused paint
- Providing a system for collection and recycling of paint that includes convenient paint drop-off sites and environmentally responsible paint management

Recycle with PaintCare

Slide 5

About PaintCare

- Created by the American Coatings Association in 2009
- Non-profit stewardship organization that sets up the paint recycling program on behalf of paint manufacturers
- Governed by Board of architectural paint manufacturers
- CalRecycle reviews & approves PaintCare’s Program Plan and Annual Report

Slide 6

Sustainable Funding

The law provides for a nominal PaintCare Fee added to the wholesale price of paint and passed down through retailers to consumers

PaintCare Fee

Half pint or smaller \$ 0.00

Larger than half pint to smaller than 1 gallon \$ 0.35

1 gallon \$ 0.75

Larger than 1 gallon up to 5 gallons \$ 1.60

Funding pays for paint management (collection, transportation, processing), outreach and management

Recycle with PaintCare

7 Slide 7

Who Can Be a Drop-Off Site

- Paint retailers: paint, hardware, home improvement, lumber yards, reuse stores
- Municipal household hazardous waste facilities
- Waste transfer stations, landfills, recycling centers, public works yards, and other appropriate facilities that are not self-serve

Recycle with PaintCare

Slide 8

What Happens to the Paint?

- Reused or donated
- Blended into recycled-content paint (latex) – sold domestically and exported
- Cement/asphalt blends (latex)
- Landscaping material (latex)
- Blended into fuel for cement kilns and hazardous waste incinerators (oil-based)

Recycle with PaintCare

Slide 9

Drop-off Site Guidelines

Recycle with PaintCare

Slide 10

Employee Training

- Any employees placing paint in the bins, or ordering pick-ups should be trained on the PaintCare Site Guidelines
- Maintain a record showing that all staff handling PaintCare materials have received this training, and are re-trained annually

Recycle with PaintCare

Slide 11

Staff Training Record

PaintCare Program: Training Record for Collection Facility Staff

Training for Collection Facility personnel is based on the PaintCare Retail Collection Facility Guidelines and other materials provided to Collection Facilities as part of their training requirement. Training includes information on the following: PaintCare Collection Facilities, accepting Program Products, what is and is not acceptable, Program operations, working with transporters, inspections and records, training and safety, and spill response.

Date	Trainee (Print Name) and Signature	Trainer Initials

**See form included in binder*

Slide 12

Onsite Materials Needed

- Operations binder with record-keeping forms
- Storage bin(s) & labels
- Spill kit
- Program product poster
- Drop-off site poster
- Customer education materials

Recycle with PaintCare

Slide 13

Where to Put Your Bin(s)

- Cubic yard area on impermeable surface (concrete, asphalt, sealed wood floor, etc.)
- Secure from the public
- Away from ignition sources & drains
- Protected from temperature extremes
- Indoor area ideal
- If outdoors, under a covered area
- Maintain enough space around bins for emergency access and inspecting for leaks

Recycle with PaintCare

Slide 14

PaintCare Products

Collect the following architectural coatings in 5 gallon containers or less, *in original container*:

- Interior and exterior architectural paints: latex, acrylic, water-based, alkyd, oil-based, enamel (including textured coatings)
- Deck coatings, floor paints (including elastomeric)
- Primers, sealers, undercoaters
- Stains
- Shellacs, lacquers, varnishes, urethanes (single component)
- Waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based)
- Metal coatings, rust preventatives
- Field and lawn paints

Recycle with PaintCare

Slide 15

Non-PaintCare Products

- **Paint thinners, mineral spirits, solvents**
- **Aerosol paints (spray cans)**
- Auto and marine paints
- Art and craft paints
- Caulking compounds, epoxies, glues, adhesives
- Paint additives, colorants, tints, resins
- Waxes, polishes, oils
- **Wood preservatives (containing pesticides)**
- Roof patch and repair
- Asphalt, tar and bitumen-based products
- 2-component coatings
- Deck cleaners
- Traffic and road marking paints
- Industrial Maintenance (IM) coatings
- Original Equipment Manufacturer (OEM) (shop application) paints and finishes

Recycle with PaintCare

Slide 16

Container Conditions

- Original container
- Original label you can read
- Sealed/not leaking
- 5 gallons or less in size
- No empty cans, but cans with dried latex, ok
- **Never open containers**

Recycle with PaintCare

Slide 17

Storing and Packing Collection Containers

- Use safe practices for handling, storage and management
- Keep collection containers closed with lids on and flat except when adding Program Products
- Pack 5 gallon buckets on bottom; layer for stability
- Do not overfill Collection Containers
- Separate Latex Paints from Oil-based Paints

Recycle with PaintCare

Slide 18

Safely Storing Paint

Labels

- Bins must have labels
- On the label, add the date the first can is placed in the bin – there is a 180 day storage limit

Packing the Bin

- Make sure bins are not damaged and have liners if needed
- Immediately place paint containers in the bin and pack upright and tightly
- Close lid when not in use
- Keep paint storage area clean and orderly

Recycle with PaintCare

Slide 19

What if Non-PaintCare Products End up in the Bin?

- If you find a non-PaintCare product in the bin prior to a pick-up, you must manage it as your own hazardous waste
- Mislabeled products and other mistakes will not be returned to you – they will be managed down stream by the hauler
- Haulers will identify any “problem” sites so we can check in to determine if additional training is needed

Recycle with PaintCare

Slide 20

Pick-Ups or Supplies

- Hauler provides bins, labels, liners, and spill kits.
- Plan ahead. Contact your hauler to schedule a pick up.
 - Urban Area: one week in advance of reaching bin capacity
 - Rural Area: two weeks in advance of reaching bin capacity
 - Mention you are a PaintCare drop-off site
 - Provide site name, address and phone number
 - Indicate number of full bins to pick up & number of new bins needed
- Sign and keep copy of bill-of-lading (provided by hauler at the time of pick-up)
- If you have oil-based program products to ship, sign the CESQG form (see example on next slide) at the time of pick-up. Oil-based program products are not accepted from non-CESQG businesses.

Recycle with PaintCare

Slide 21

CESQG Certification Log

PaintCare Program: CESQG Certification

Any business may drop latex paint Program Products at this Collection Facility, but you may only use this Program for oil-based Program Products if you are a Household or a Conditionally Exempt Small Quantity Generator (CESQG). A CESQG is a business that generates less than 100 kilograms (about 27 gallons or 220 pounds) of hazardous waste (e.g. solvents or oil-based paint) per month. If you do not qualify as a CESQG, you must use a licensed hazardous waste hauler for managing your oil-based paint products.

By signing this document, I certify that my organization is as a CESQG. I also understand that the Collection Facility accepting this waste and PaintCare Inc., their agents, employees, member companies, officers, directors, stockholders, assigns and attorneys do not assume liability for my waste and that liability remains with my organization. By signing below, I waive, release and hold harmless the entities and persons referred to in this paragraph from any liability, claim, injury, losses or damages arising from the provision of these materials to the Collection Facility.

<small>Business or Organization (please print)</small>	<small>Name of Person Dropping Off Program Product (please print)</small>	<small>Signature</small>	<small>Phone Number</small>

*See form included in binder

Slide 22

Slide 22

Spill Preparedness

- Store the following emergency response equipment in an easily accessible area:
 - Personal protective equipment (PPE);
 - Fire extinguisher; and,
 - Spill kit containing safety goggles, gloves, absorbent, plastic bags.
- Inspect all equipment and storage area regularly.
- Post emergency procedures and contact information including police, fire department, and emergency services by a phone near the paint storage area.

Recycle with PaintCare

Slide 23

Spill Clean-Up

Clean up any spill or release of program products immediately:

1. Isolate the area
2. Use protective gear
3. Place leaking container upright in the spill kit bucket or plastic bag
4. Place absorbent around the spill, then fill in towards source
5. Place barriers around any storm drains
6. Place contaminated absorbent material and protective gear in bag or bucket with leaky container
7. Seal bag or bucket and place in bin
8. Contact PaintCare to replenish spill kit materials as needed

Recycle with PaintCare

Slide 24

Spill Reporting

- Document the date, location, amount, and type of program product spilled
- Report program product spills of more than 10 gallons and release of any quantity through a storm drain, waterway, or into soil to:
 - Your local environmental enforcement agency
 - State enforcement agency: California Emergency Management Agency (Cal EMA) 1-800-852-7550
- Notify PaintCare within 24 hours of any report

Recycle with PaintCare

Slide 25

Record Keeping

- Employee training sheets
- CESQG log sheets
- Bills-of-lading

Keep all records on site for a minimum of three years

Recycle with PaintCare

Slide 26

Closing a Drop-Off Site

- Notify PaintCare 60 days before stopping collection services
- As part of your last pick-up, verify that all program products and bins are returned to PaintCare

Recycle with PaintCare
