Paint Drop-Off Log (for businesses and organizations)

Eligibility: A business or organization may use the PaintCare program to manage program-eligible hazardous waste products (e.g., unwanted oil-based paint, varnishes, solvents) only if it provides the information below and certifies that all hazardous waste it provides to the PaintCare program qualifies as exempt under federal (40 CFR § 262.14) and analogous state/local hazardous waste generator rules for very small quantity generators. Among other criteria, each business/organization responsible for generating waste at a site must, at that site, (1) generate no more than 100 kilograms (about 25 gallons or 220 pounds) of hazardous waste per calendar month, (2) generate no more than 1 kilogram (about 2.2 pounds) of acute hazardous waste per calendar month, and (3) accumulate no more than 1,000 kilograms of hazardous waste at any given time.

Because generator status can vary from month to month, your organization must sign and date this log sheet each time that it seeks to manage hazardous waste through the PaintCare program.

Certification Statement: By signing this document, I certify that all hazardous waste being provided to the PaintCare program qualifies as exempt waste under applicable federal and state/local laws. My organization releases and holds harmless the entity accepting this waste, as well as PaintCare Inc., its sole member and related companies, and their agents, employees, member companies, officers, directors, successors, and assigns from any liability, claim, injury, losses or damages arising from my organization's provision of any materials to the PaintCare program.

[This log sheet may be provided to state agencies upon their request.]

Date	Oil-Based Paint Gallons	Name of Business/Organization	Address of Business/ Organization	Name of Person Dropping-Off Paint	Signature	Phone Number
