**Section 18953. Stewardship Plan Approval Criteria**

(a) Paint stewardship plans must follow the standard outline per §18952 and contain the following:

(1) Contact information. Identify the manufacturer or designated stewardship organization responsible for the stewardship plan submittal. A manufacturer or stewardship organization shall provide updates to the list of manufacturers and brands participating in its program within 30 days of any changes to that list.

(2) Program Goals and Activities. Include program goals that are specific to and appropriate for California. Factors to consider when determining program goals may include the current and future recycling infrastructure and capacity and changes in market conditions in California. Description of goals must include a baseline, to be provided by the manufacturer or stewardship organization, from which the goals will be measured and reported in the manufacturer or stewardship organization's annual reports. The baseline should indicate the status of household hazardous waste management in California at the time of plan submission. Describe how the goals will be measured, including a description of the methodology used for estimating the amount of leftover paint available for collection in California. Describe how the program will:

(A) Reduce the generation of postconsumer paint;

(B) Promote the reuse of postconsumer paint;

- (C) Properly manage postconsumer paint at end-of-life in an environmentally sound fashion, including recovery, recycling, and proper disposal of postconsumer paint; and
- (D) Manage paint containers and undertake market development activities, if a manufacturer or stewardship organization chooses to engage in these activities.
- (3) Collection Systems. Describe the system that will be used to collect and properly manage postconsumer architectural paint to demonstrate how there will be sufficient funding for the program and how it will be implemented in an environmentally sound fashion. This description must include the following:
- (A) Collection methods used for architectural paint, by type.
- (B) Destination for reuse activities, processing (including recycling) and/or disposal for architectural paint, by type.
- (C) Description of best management practices to be followed by service providers that are acting as collection points, which may include any training that the manufacturer or stewardship organization intends to provide to or require of service providers to ensure proper collection and management of postconsumer architectural paint.
- (D) Description of how each consumer of architectural paint in California will have an opportunity to recycle and properly manage their unwanted architectural paint on a state wide basis, including the proposed number, location, and type of collection points located in the state.
- (E) Address the coordination of the architectural paint stewardship program with existing local household hazardous waste collection programs. A manufacturer or stewardship organization must negotiate with existing local household hazardous waste collection programs wanting to participate in the paint stewardship program as a collection point as much as is reasonably feasible and is mutually agreeable.
- (F) Address the coordination of the architectural paint stewardship program with potential retail collection points. Any retailer may participate, on a voluntary basis, as a paint collection point pursuant to the paint stewardship program. A manufacturer or stewardship organization must negotiate with any retailer wanting to participate in the paint stewardship program as a collection point, as much as is reasonably feasible and is mutually agreeable.
- (4) Financing Mechanism. Include a funding mechanism that provides sufficient funding to recover, but not exceed, the cost of the architectural paint stewardship program, including the administrative (including financial audits per PRC §48705(a)(6)), operational, and capital costs of the program. The funding mechanism includes the following:
- (A) The amount of the assessment per unit of architectural paint sold in the state.
- (B) A budget for the program that includes revenue estimates from the assessment, operational costs, capital costs, and administrative costs (including those pursuant to §18958 re: service payment to the department).
- (C) Stewardship organization and manufacturers shall allocate revenues and expenditures applicable to this program in accordance with Generally Accepted Accounting Principles (GAAP).

collection point for the manufacturer or stewardship organization's stewardship program. This provision does not apply to referrals to collection points based on publically available information.

(6) Stakeholder Consultations. In addition to existing local household hazardous waste collection programs per §18953(a)(3)(E), other stakeholders that may be consulted include, but are not limited to, consumers, retailers, architectural paint recyclers, architectural paint contractors, and haulers.

(b) The manufacturer or stewardship organization submitting the stewardship plan shall provide, upon request, additional information to assist the department as may be necessary for the approval of the plan in compliance with the California Environmental Quality Act.
