

Generator Certification

Any individual, business or other type of organization may drop off latex paint Program Products at this Drop-Off Site, but you may only use this Program for oil-based Program Products if you are a household or a business/organization that meets specific state and federal hazardous waste generator rules that among other criteria, require that that your business/organization generate no more than 100 kilograms (about 25 gallons) of hazardous waste or 1 kilogram of acutely hazardous waste per month, and do not accumulate more than 1000 kg of hazardous waste at any time. If you do not meet these qualifications, you must use a licensed hazardous waste hauler for managing your oil-based paint products.

Certification: By signing this document, I certify that my business/organization does not generates more than 100 kilograms of hazardous per month, generate more than 1 kilogram of acutely hazardous waste per month, currently store more than 1000 kg of hazardous waste, and meet other state and federal hazardous waste generation rules required by the PaintCare Program. I also understand that the Drop-Off Site accepting this waste and PaintCare Inc., its sole member, and their agents, employees, member companies, officers, directors, successors, and assigns do not assume liability for my waste and that liability remains with my organization. By signing below, I waive, release and hold harmless the entities and persons referred to in this paragraph from any liability, claim, injury, losses or damages arising from the provision of these materials to the Drop-Off Site.
