Oregon’s paint stewardship law requires paint manufacturers to set up and operate a paint stewardship program in the state. Funding for the program comes from a fee applied to the price of architectural paint sold in Oregon. The program started in July 2010.

Paint Stewardship
PaintCare is a nonprofit organization established by the American Coatings Association to implement state-mandated paint stewardship programs on behalf of paint manufacturers in states that pass paint stewardship laws. PaintCare currently operates programs in California, Colorado, Connecticut, District of Columbia, Maine, Minnesota, Oregon, Rhode Island, and Vermont, and is developing programs for New York and Washington. The Oregon program is required by state law, but it is designed and operated by the paint manufacturing industry through PaintCare.

Convenient Paint Recycling
PaintCare’s primary effort is to establish paint drop-off sites in PaintCare states to make it more convenient for households and businesses to recycle paint. In addition to retailers, paint drop-off sites may include municipal household hazardous waste facilities and events, solid waste transfer stations, and landfills. Paint retailers represent over 75% of the more than 1,750 paint drop-off sites across the existing nine programs.

Participation as a Drop-Off Site is Voluntary
Paint retailers that would like to be drop-off sites can participate if they have space for paint storage bins and can provide minimal staff time to accept paint from the public. By doing so, retailers can increase foot traffic and provide an environmental service for their community. They make it convenient for their customers to recycle leftover paint and help provide relief to local government programs that manage leftover paint. PaintCare provides everything the store will need, including paint storage bins, site training, and support. PaintCare pays for paint transportation and recycling and promotes sites to the local community.

Stores that would like to become a drop-off site can fill out the Interest Form available in the Retailers section of www.paintcare.org/OR.

REQUIREMENTS OF RETAILERS

1. Check Registered Manufacturers and Brands
Retailers may not sell architectural paints in Oregon that are not registered. Paint manufacturers must register their company with PaintCare, and they must register all architectural paint brands they sell in the state. PaintCare publishes lists of registered manufacturers and brands so that retailers can check to see that the products they sell are registered. Please visit www.paintcare.org/lists for registration lists.
2. Pass on the Stewardship Fee
State law requires that a stewardship fee (PaintCare fee) is applied by manufacturers to the wholesale price of architectural paint sold in Oregon. This fee pays for all aspects of running the program.

The fee is paid by manufacturers to PaintCare and then passed to their dealers. Retailers should see the PaintCare fee on invoices from suppliers. The law also requires that retailers and distributors apply the fee to the price of architectural paint they sell. The fees paid by customers to retailers offset the fees charged to the retailers. This ensures a level playing field for all parties.

3. Provide Information to Customers
Paint retailers in Oregon must provide customers with information regarding the program and paint collection and recycling opportunities. PaintCare has developed the materials, ensured they meet state requirements, and provides them free of charge to all paint retailers and others required to distribute them.

COMMON QUESTIONS ABOUT FEES

How much are the fees?
Fees are by container size, as follows:

$ 0.00  —  Half pint or smaller
$ 0.45  —  Larger than half pint up to smaller than 1 gallon
$ 0.95  —  1 gallon up to 2 gallons
$ 1.95  —  Larger than 2 gallons up to 5 gallons

How are the fees calculated?
Fees are set to cover the cost of a fully operating program. PaintCare estimates the annual sales of architectural paint in each state and divides the estimated annual expenses of the program by the estimated number of containers to be sold, adjusts for container size, and determines a fee per size that will provide the budget needed to fund the program. PaintCare is a nonprofit organization and operates programs on a state-by-state basis, so the fees may increase or decrease and may be different from state to state.

Is the fee a deposit to be returned to customers?
No, the fee is not a deposit. Fees are used entirely to cover the expenses of running the program and not given back as a deposit for the return of paint or empty paint cans — a common misunderstanding.

Must we show the fee on receipts?
No, this is not required, but most stores do show the fee in order to explain the price increase to their customers. PaintCare also encourages retailers to show the fee to increase awareness of the program.

Do we return the fee if a product is returned?
Yes, the fee should be returned because it is part of the purchase price.

How does the public know about the fee?
PaintCare provides brochures and other printed materials for retailers to distribute to the public to help explain the purpose of the fee, how the program works, and how to find paint drop-off locations. Additional materials can be ordered at any time for free. In addition to retailer information, PaintCare works with contractor associations to get information to trade painters.

What products are covered?
Architectural paints include most house paints, stains, and clear coatings (e.g., varnish and shellac). For the definition of architectural paint for the purposes of this program or examples of PaintCare and non-PaintCare products, please contact PaintCare or visit www.paintcare.org.
