

LARGE VOLUME PICKUP (LVP) SERVICE

Free Pickups for 100+ Gallons of Leftover Paint

In states where PaintCare operates, households, businesses, and others who have accumulated a large volume of paint may be eligible for PaintCare's free large volume pickup service (LVP) for 100 or more gallons, measured by container size, not liquid volume.

How to Request an LVP

Sort and count your paint

Tally the number of each container size and the type of products you have, sorted into two categories:

- Water-based paints and stains
- Oil-based paints and stains and any other program products (sealers and clear top-coat products, such as varnish and shellac)

Fill out the request form

Fill out the LVP request form at www.paintcare.org/pickup. Call PaintCare at (855) PAINT09 if you need assistance using the web form.

Schedule your pickup

PaintCare staff will either approve your site for a pickup or inform you of the best place to take your paint if you do not meet the requirements. If approved, we will connect you with our licensed transporter to schedule a pickup. It may be several weeks before your pickup occurs.

Prepare for your pickup

Sort your products into the two categories as noted above and store them in an area that has easy access for the transporter. The path should be at least four feet wide to accommodate movement of the paint collection bins.

On the day of your pickup, the transporter is responsible for packing the paint into the bins. Once your paint is properly packed and loaded onto the transporter's truck, you will sign a shipping document and receive a copy for your records. Your paint will then be taken to an authorized facility for processing.

To view a full list of accepted products, please visit www.paintcare.org/products. For non-PaintCare products, households should reach out to their local Household Hazardous Waste facility and businesses should contact a licensed hazardous waste transportation company.

Drums and Bulked Paint Are Not Accepted

PaintCare only accepts paint in containers that are 5 gallons or smaller in size. Leave paint in original cans with original labels; do not combine or bulk paint from small cans into larger ones.

With the exception of businesses in Illinois, to use the PaintCare program for oil-based paint, a business must qualify as an exempt generator under federal and any analogous state hazardous waste generator rules. Please visit www.paintcare.org/business-limits for more information on exempt generator rules. If your business does not qualify as an exempt generator, it will not be able to use the program for oil-based paint, but it can still use the program for latex products. (Non-exempt generators may use the pickup service in New York. Contact PaintCare for details.)
